ACKNOWLEDGEMENT

I express with great pleasure my deep sense of gratitude to Dr. T.M. Das, M.Sc.(Cal), Ph.D.(Lond.), D.I.C., Retd. Professor and Dean, Faculty of Agriculture, Univ. of Calcutta, for his valuable guidance, encouragement and constructive criticism throughout the period of the investigation and during preparation of the thesis.

I am grateful to Dr. T. Ghosh, Ex. Director, Jute Agril. Res. Institute, Barrackpore, for providing me necessary field and laboratory facilities at the Institute as well as the encouragement for carrying out the investigation. I am thankful to Dr. A.K. Mondal, Dr. S.M. Chatterjee, Dr. N.K. Chakrabarty, Ex. Directors of the Institute for encouraging me in carrying out the investigation.

I would like to express my sincere gratitude to Dr. S.L. Basak, the present Director of the Institute for his valuable suggestions and statistical interpretations of the studies.

I would like to express my gratefulness to Dr. P.C. Mitra, Senior Principal Scientist, of the Institute for his kind cooperation and encouraging me for academic activities.

I also extend my grateful thanks to Dr. A.R. Roy, Principal Scientist, of the Institute for kindly going through the manuscript and suggesting me for its improvement.
My thanks are due to Dr. B.C. Sasmal, Senior Statistician of the Institute who has kindly helped me to carry out the statistical work of the investigation.

I also extend my thanks to Dr. K.K. Goswami, Senior Scientist of the Institute for helping me during the statistical work of the studies.

I also extend my gratefulness to Dr. S. Pathak, Head, Division of Agronomy of the Institute for helping me in economical analysis of the studies.

My heartfelt thanks are due to Shri D. Som, Senior Scientist (Plant Pathology), of the Institute for helping me during the microbiological studies of soil.

I would like to express my sincere gratitude to Dr. S.K. Mukhopadhyay, Professor and Principal, Palli Siksha Sadan, Vishwa Bharati, for his valuable suggestions from time to time for carrying out the investigation.

My thanks are due to Shri S.K. Bose Librarian of the Institute for various facilities provided to me for this study.

I am thankful to Shri S.K. Pradhan, Head, Dept. of Entomology of the Institute for encouraging me for academic studies as well as for his elder brotherly attitude, as and when I approached him for various reasons.

I am also thankful to Shri Amitabha Saha, for assisting me in various ways during the course of investigation.
My sincere thanks also goes to all staff-members, Division of Agronomy of the institute as well as the staff members of the Institute for their active cooperation in completing the present work.

I will be failing my duties, if I do not express my very sincere thanks to Shri Govinda Basu and Satish Sarkar, Field Technicians of the Institute who helped me in collecting the data on weed flora and for many other work in completing the studies.

I am also expressing my deep sense of gratitude to my father and mother, for their constant inspiration in completing the investigation.

I feel much pleasure to express my affectionate thanks to my younger brother Ashoke Kumar Biswas, sister Sm. Dipa Biswas, brother's son Abhijit and Arijit.

The moral support provided by my wife, Champa, cannot be appreciated in mere words whose sacrifice and assistance so gratefully given to me for successful completion of this study.

Lastly, but not the least, I express my affection to my beloved daughter Babli for keeping me happy and cheerful during the period of study.

Dilip Kumar Biswas

Division of Agronomy,
Central Research Institute for
Jute and Allied Fibres
Barrackpore, West Bengal.
