Acknowledgements

A journey is easier when you travel together. Interdependence is certainly more valuable than independence. This thesis is the result of four years of work, whereby I have been accompanied and supported by many people. It is a pleasant aspect that I have now the opportunity to express my gratitude for all of them.

First and foremost, I deem it a rare opportunity to pronounce my deep sense of gratitude to the tutelary, Dr. S.M. Aradhya, Scientist, Department of Fruit & Vegetable Technology, Central Food Technological Research Institute, Mysore, for his exemplary guidance and for giving me the chance to learn and challenge the new things. I owe him lots of gratitude for having shown this way of research. He could not even realize how much I have learned from him. His company and assurance at the time of crisis would be remembered lifelong. Besides of being an excellent supervisor, he was as close as a relative and a good friend to me. I am really glad that I have come to get know him my life.

Special thanks to Dr. S. Rajarathnam, HOD, Department of Fruit & Vegetable Technology, Central Food Technological Research Institute, Mysore, for providing me constant encouragement, cooperation and suggestions. The cooperation I received from other faculty members of this department is gratefully acknowledged. It is an incontrovertible fact that the help I received from Scientists & other staff of our department, directly or indirectly made my task easier.

With great pleasure I thank Padmasree Dr. V. Prakash, Director, Central Food Technological Research Institute, Mysore, for providing me an opportunity to work in this esteemed institute and also for moral support.

I would like to thank Dr. S. Divakar, Scientist, Fermentation Technology & Bioengineering Department, Dr. L. Jaganmohan Rao, Scientist, Plantation Products, Spices and Flavour Technology, CFTRI, Mysore, and Prof. D. Channe Gowda, Department of Studies in Chemistry, University of Mysore, Mysore, for their inestimable guidance in isolation and characterization of bioactive molecules.

Also I would like to thank Prof. B. Suresh, Principal, JSS Pharmacy College Ooty, Dr. P. Vijayan, Professor, JSS Pharmacy college Ooty, Tamilnadu for helping me to carry out the cytotoxicity studies.

I wish to acknowledge and express my thanks to Scientific Staff, Central Instrumentation Facility, Central Food Technological Research Institute, Mysore, for their help in carrying out instrumental analysis. I also remember the help rendered by scientific staff, Sophisticated Instrumentation Facility, Indian Institute of Science, Bangalore, & Molecular Biophysics Unit, Indian Institute of Science, Bangalore, in carrying out NMR and LC-MS analysis and is acknowledged.
I sincerely thank Prof. S.C. Hiremath, for his timely help and moral support throughout my research period. I also thank all the teaching staff of Department of Botany, Karnataka University, Dharwad, for their encouragement and inspirational teaching. My honest thanks to Dr. C.G. Patil, Lecturer, Karnataka Science College, Dharwad, for his immense help and support.

I also want to thank my parents, who taught me the value of hard work by their own example. I would like to share this moment of happiness with my beloved father and mother. They rendered me enormous support during the whole tenure of my research. The encouragement and motivation that was given to me to carry out my research work by all relatives is also remembered.

I feel a deep sense of gratitude for my late uncle Jagadeesh, who formed a part of my vision and taught me the good things that really matter in life. The happy memory of my late uncle still provides a persistent inspiration for my journey of life. I am grateful to my beloved brother Lingaraj, for his constant support and also rendering me the sense and the value of brotherhood.

My special thanks to my wife Roopa for her constant support, care and evergreen love that she served throughout my research work in the form of delicious food items. One of the best experiences that we lived through in this period was the birth of our daughter Dhanya, who provided an additional joyful dimension to our life.

In my opinion, doing a Ph.D. is a sacred task and this was definitely one of the best decisions of my life. Additional energy and vitality for this research was the opportunity to meet many good friends. I wish I would never forget the company I had from my fellow research scholars of my department and other departments. In particular, I am thankful to Anand, Desai, Mohan, Swaroop, Siva Prasad, Nagendra, Lakshmisha, Raghu, Abiraj, Harsha, Saravanan and Ravi whose constant inspiration and support made my work easy. And they made my stay at CFTRI a memorable one.

I thank my friends, Megharaj, Nijaguni, Deepak, Praveen, Ravikumar, Siddu, Nani, Mahesh, Prakash, Spoorthy, Anu, Hema, Asha, Jaya, Geeta, for having shared many experiences and thoughts with me.

The episode of acknowledgement would not be complete without the mention of the Council of Scientific and Industrial Research (CSIR), New Delhi, for awarding the Junior Research Fellowship (2003-2005) and Senior Research Fellowship (2005-2007).

Finally, I would like to thank all, whose direct and indirect support helped me completing my thesis in time.
