Acknowledgements

I take this opportunity to express my sincere gratitude towards my supervisor Dr. Dinakar M. Salunke. His expert guidance, meticulous supervision and knowledge of the subject have made this study a rewarding experience. His enthusiasm and encouragement have been a constant source of inspiration and motivation.

I extend my humble thanks to the Director, Dr. S.K. Basu for providing a conducive and resourceful working environment in NII. I acknowledge the efforts of the Doctoral committee members, Dr. J.K. Batra, Dr. D. Mohanty and Dr. B. Jayaram, for their valuable advice and interest in my work.

I would like to thank all my friends at the Structural Biology Unit and NII, seniors and juniors alike. The help and advice of my seniors, Deepti, Deepak, Usha and Manisha, has immensely aided the learning experience. I am blessed to have the most friendly and lively juniors, Dhruv, Lavanya, Veenu, Suvendu and Vineet. The generous support of Dhruv and Lavanya has been most helpful at various stages. I feel privileged to have gained their friendship. I am grateful to Lavanya, for also going through the draft and providing valuable suggestions. I'm unable to express words for my sense of immense satisfaction from the company over the years of Dr. Kanwaljeet, Sushma, Dr. Kavita, Dr. Pampi, Chitra, Sanjeev, Surinder, Anupriya, Insaf, Veenu, Suvendu, Vineet, Eshwari, Beena and Meghna. I am also thankful for their support and understanding and patience during the preparation of this thesis. I
thank Nihalji, Sarna and Uncleji for running around for me and also maintaining the lab resources.

The financial aid from Council of Scientific and Industrial Research and National Institute of Immunology is duly acknowledged.
