

FOREWARD

The present dissertation entitled 'Studies on the cytochemical changes related to pantothenate metabolism in streptococci' is submitted herewith for the degree of Doctor of Philosophy (Science) of the Calcutta University. The research work has been carried out in the Department of Applied Chemistry, Calcutta University.

I take the opportunity to express my deep sense of gratitude to Dr. D.N. Das, M.Sc.(Tech.), D.Sc., Reader, Department of Applied Chemistry, Calcutta University, for his valuable advice and guidance throughout the course of this study.

I am thankful to the Head of the Department of Applied Chemistry, Calcutta University for allowing me to work here and utilize the laboratory facilities available in this Department.

I am grateful to Prof. S. Mukherjee and Prof. S. Aditya of the Department of Applied Chemistry for allowing me to use spectrophotometers and other instruments available in their laboratories.

My grateful thanks are also due to Dr. S. Banerjee, former Chief Scientific Adviser of Dey's Medical Stores, Calcutta for kindly supplying us Penicillin-G, Chloramphenicol and Streptococcus faecalis R ATCC NO. 8043 and Prof. G.D. Shockman, Chairman, Department of Microbiology, Temple University School of Medicine, Philadelphia, pa., 19140.

USA, for kindly supplying us Streptococcus faecalis ATCC NO. 9790.

I would like to thank Prof. K.L. Bhattacharya and Mrs. Aruna Mitra of Chittaranjan National Cancer Research Centre, Calcutta for help in connection with fixation and sectioning of S. faecalis cells; and Prof. W.N. Dasgupta and Dr. (Mrs) Anima Sen of Electron Microscope Centre, Calcutta University, for taking the electron micrographs of these cells. I also thank Dr. S. Chatterjee, Prof. of Biophysics, Saha Institute of Nuclear Physics, Calcutta, for his kind help in interpreting the electron micrographs.

Thanks are also due to Dr. A. Chatterjee, Chief Scientific Officer, and Dr. T. Guha of Regional sophisticated Instrumentation Centre, Bose Institute, Calcutta in connection with our studies with scanning electron microscope.

Grateful thanks are also due to Dr. B. Pathak, Mrs. S. Chakraborty, Dr. (Mrs.) M. Chandra and Miss B. Chowdhury for helps in various ways.

I want to thank Calcutta University and Indian Council of Medical Research, New Delhi for financial assistance.

Dated, Calcutta.

January, 1980
