

CONTENTS

INTRODUCTION	1 - 30
Some naturally occurring pantothenate containing factors in bacteria and their biochemical role	2 - 11
Some macromolecular structures in bacteria and their biogenic relation to pantothenate	12 - 28
Plan of work	29 - 30
<u>Chapter 1</u> STUDIES ON THE RESPONSE OF <u>STREPTOCOCCUS FAECALIS</u> TOWARDS PANTOTHENATE AND ITS PRECURSORS	31 - 38
1.1 Materials and methods	31 - 34
1.2 Results and discussion	34 - 37
1.3 Summary	37 - 38
<u>Chapter 2</u> STUDIES ON THE PANTOTHENATE DEFICIENCY AND SYNTHESIS OF INTEGUMENTAL STRUCTURES (CELL WALL AND MEMBRANE) OF <u>STREPTOCOCCUS FAECALIS</u>	39 - 51
2.1 Materials and methods	41 - 46
2.2 Results and discussion	47 - 50
2.3 Summary	50 - 51

<u>Chapter 3</u> STUDIES ON THE AUTOLYTIC ACTIVITY AND SENSITIVITY OF PANTOTHENATE-DEFICIENT <u>STREPTOCOCCUS FAECALIS</u> TOWARDS PENICILLIN, CHLORAMPHENICOL AND LYSOZYME	52 - 60
3.1 Materials and methods	54 - 55
3.2 Results and discussion	55 - 59
3.3 Summary	59 - 60
<u>Chapter 4</u> STUDIES ON THE VIABILITY OF AND MACROMOLECULAR SYNTHESIS IN <u>STREPTOCOCCUS FAECALIS</u> GROWN UNDER PANTOTHENATE-DEFICIENT CONDITIONS	61 - 74
4.1 Materials and methods	63 - 68
4.2 Results and Discussion	69 - 73
4.3 Summary	73 - 74
<u>Chapter 5</u> STUDIES ON THE MORPHOLOGICAL AND ULTRASTRUCTURAL CHANGES OF <u>STREPTOCOCCUS FAECALIS</u> GROWN UNDER PANTOTHENATE-DEFICIENT CONDITIONS	75 - 86
5.1 Materials and methods	76 - 81
5.2 Results and discussion	81 - 85
5.3 Summary	85 - 86
CONCLUSIONS	87 - 88
REFERENCES	89 - 97
