This thesis has taken a long course of work in various fields of Religion. Though I have registered it as the thesis for D. Phil only, restricted the field of Religion to certain points, yet I have studied and have a practical research in this field, as a whole. I have studied and investigated the religion from the point of Spiritual level, from the point of Mental level and from the point of Material level.

First, I bow to every individual to be my teacher.

According to Indian interpretation "Namaste Jagad Bapike Bishowirte" (*নামস্বে জগৎব্যাপিকে বিশ্বহিতৈশ্চ*) and then to my respectable parents, named Late Dr. Harigopal Barat, M.B., F.R.C.S (Ed), D.A. F.F.A.R.C.S. (Eng) and Mrs. Mira Barat for providing me all the facilities for the research in this aspect.

Dr. S. Sinha, Ex-Head of Dept. of Psychology suggested this topic for research under his guidance in the year 1959. I also have gratitude and regard for him, to show the way in Education. According to his verbal permission I have investigated in this field independently. This thesis is submitted for the standard of D. Litt. research work according to his permission.

I also have gratitude to every colleague in the Psychology Dept. of C. U. I also have my best regards to the Secretary of Ramkrishna Mission of Gol Park, Sri Nityasaroopananda, a learned man in India for consulting and arranging this paper in an organized way. By his unbiased views he has helped me very much to proceed in this research-work and has given me inspiration to compile my investigation in the form of a Doctorate thesis.

I also thank my husband, Mr. T. K. Sengupta, Area Manager of Worthington, for giving me the opportunity to complete my research work. This thesis owes much to editorial assistance given by our secretary, Mrs. P. Chapman. She has typed the manuscript in a proper style and order.

I am grateful to the Librarian of Ramkrishna Mission for giving me permission for searching the necessary books from their library.

Sanskrit has been learned from a Sanskrit scholar. This has been a helpful aid to reproduce my thoughts in Eastern Style of Psychology. National Library and also the Library of Calcutta University helped me in this field by supplying books on this topic of research.

Practical Research-Work for the Spiritual theme of Religion has been done some time away from the society.

I was for some time in Kashmir, Kulu, Manley and Haridwar for this practical research of the Unknown Theory of Religion. Many people of different religions, by their own point of view, have tried to teach me the Religion. I also have my gratitude to them for their honest efforts and endeavours.

I also accepted the hostile and friendly attitudes of the people in their outlook peacefully. To me the Almighty, with His different robes, appears to guide me in a proper way.

I also thank everyone who is my friend or foe and who has helped me in various ways in the due course of work.
