The thesis entitled 'Chiro-optical Studies on Rare Earth Single Crystals' embodied a part of the work carried out by the author since September 1976. The author takes this opportunity to acknowledge Prof. Mihir Chowdhury, Head, Physical Chemistry Department, Indian Association for the Cultivation of Science for introducing him to the subject and for overall guidance during the entire period of the work. He also acknowledges the NCERT, New Delhi and I.A.C.S., Calcutta for financial assistance and also the latter for providing him with laboratory facilities.

It is a pleasure to recall thankfully the cooperation received from, among others, Dr. A.K. Banerjee and Prof. R.W. Schwartz, formerly of Louisiana State University, Baton Rouge, USA, Dr. S.P. Bhattacharyya, Dr. A. Nath, Dr. A.C. Sen, Dr. S. Roy, Dr. D. Mukherjee, Dr. R.K. Mukherjee, Dr. U.S. Ghosh and Mr. B. Karmakar.

The author happily acknowledges the helps he received from his colleagues and coworkers such as, Dr. K. Bhattacharyya, Dr. D. S. Roy, Dr. B. Ghosh, Mr. A. Samanta, Mr. D. Nath, Miss S. Basu, Miss T. Guin, Dr. M. Durgaprosad, Mr. K. Das, Mr. K. Bhattacharyya etc.

Finally the author feels happy to acknowledge the trouble taken by Mr. Amaresh Lala and Mr. Tapan Kumar Moulik for typographical assistance.

Indian Association for the Cultivation of Science, Calcutta, the 27th February 1985.

( PRABIR KUMAR CHATTERJEE )
