ACKNOWLEDGEMENTS

It was challenging period to undertake this project but first of all I would like to thank “ॐ” for everything & many people who have contributed substantially to the process of developing this program of studies on ISOLATION, CHARACTERIZATION & STUDY OF MICROORGANISM FROM POST OPERATIVELY INFECTED PATIENTS IN HOSPITALS. These include first of all my supervisor during the period of studies – Dr. Hemant V. Sukhadia, for his guidance, expert advices & his cooperation throughout the period of this research.

My wife VIRAL who supervised the maintenance of the research database & bust up my moral power during whole study process. My father Ashvinbhai & my lovely mother, Charuben & my whole family. I really cannot thank you enough.

I would also like to thank my lovely two daughters, URJA and BARSA. They have kept their patience with their father while he worked on these studies. In that time the girls have grown from newborn to the point of approaching of pre-school.

I also thank all my friends, especially Rajni Raiyani, who contributed directly or indirectly to the success of this project.

I am also grateful to management & staff of N. & M. Virani Wockhardt Hospital, Rajkot & Sanjeevani Pathology Laboratory, Rajkot to provide me the best environment for my research.
