

ACKNOWLEDGEMENT

It gives me great pleasure to express my deep sense of gratitude to my supervisor Professor Susweta Biswas who has given me a chance to work in her laboratory well suited for molecular biology. Her interest, enthusiasm and suggestions have made my endeavour a success.

I would like to take this opportunity to express my sincere regards and heartfelt gratitude to Prof. B.B. Biswas for his valuable advice, keen interest, kind patience and untiring efforts during the course of this work. His vast erudition and single minded devotion to science has really provided the appropriate backdrop to this work.

Sincere regards and special thanks are due to Prof. R.K. Mandal, Prof. N.C. Mandal, Prof. B. Bhattacharya, Dr. P. Sinha, Dr. A. Lohia, Dr. P. Parrak, Dr. R. Chatterjee, Dr. P. Chakraborty and late Dr. P. Gupta.

I am grateful to Dr. M. Pal and Dr. A. Chattopadhyaya for their active participation in some critical stages of the work. I also thankfully acknowledge the cordial help I received from Dr. D. Bhattacharya of Saha Institute of Nuclear Physics.

I am thankful to my laboratory colleagues Giri, Mitadi, Rumadi, Bhudevda, Krittikadi and Jayashreedi for extending all possible help whenever necessary. I also wish to acknowledge Asimda for his excellent technical assistance. Special thanks are due to my departmental colleagues, Niruda, Santanuda, Sankarda, Subrotoda, Biswenduda, Nandanda, Hirrock, Arup, Sudit, Nambodiri, Kausik, Gopal, Salmali, Pampi, Suranjana, Suroopa, Nabanita, Pradipda, Pallob, Surekha, Lopadi, Runa and Jayanta for extending their cordial and cooperative hands all the time. I thankfully

acknowledge the services rendered by staff members of Distributed Information Centre and Library.

I acknowledge the financial help given to me by University Grants Commission (UGC) and Dept. of Science and Technology DST) during my doctoral work.

I am thankful to my friends Pradip, Rana, Saibal, Indrajit, Pulok, Kuntal, Putu for their mental support at very critical during this work.

I wish to take this opportunity to express my deep sense of gratitude to my father, mother, brother and his wife, sisters, and other younger family members viz. Babua, Runa and Mona for their constant inspiration, encouragement and patience during the course of the work without which the dissertation would have been a dream.

I also wish to acknowledge my father and mother in laws for their mental support and inspiration. My sincere thanks to Babu and Muni for their encouragement during many critical phases of the work.

I must express my gratitude to my niece "Dona", who has permitted me to overcome occasional frustrations with her precious smile.

I also wish to acknowledge my wife "Rinku" for her constant mental support, encouragement and constructive criticism without which this dissertation would not have come to light.
