ACKNOWLEDGEMENT

The investigator expresses his deep gratitude to Prof. (Dr) A. S. Chaudhuri, the supervisor of the research project for suggesting this problem and for his constant guidance and encouragement throughout the investigation.

To the Secretary to the Government of West Bengal (GOWB), Irrigation and Waterways Department and the Executive Engineer, Chief Engineer's Drawing Office, Irrigation and Waterways Directorate, GOWB, the investigator is grateful for allowing him to carry out Ph.D. dissertation under Part-time Ph.D. Programme.

The investigator is highly obliged to Dr. B. Sen, Director, Bengal Engineering College (BEC) - a Deemed University, for his kind permission to work at the BEC and also for extending the necessary working facilities to carry out this research project.

To Dr. J. K. Sen, Professor and Head, Electrical Engineering Department, BEC, the investigator expressing his thanks for providing him necessary facilities to work in his Department.
Sincere thanks are extended to Academician A. G. Ivakhnenko of Institute of Cybernetics, Kiev, Professor Y. C. Ho of Harvard University, Professor M. B. Beck of Imperial College of Science and Technology, London, Professor Young of Australian National University, Professor Lennart Ljung of Linkoping University and Professor R. L. Kashyap of Purdue University who kindly helped by sending a large number of their research papers for the state-of-art literature.

To his colleagues and senior members of the West Bengal Service of Engineers (Irrigation) who shared with him his moments of success and failure, the investigator expresses warm thanks.

Thanks are also expressed to the staff members at the Computer Centre, and the Computational Laboratory, Mathematics Department, BEC, for extending every possible help.

Last but not the least, the investigator is grateful to his wife, Supriya, and daughter, Payal, who patiently managed smile during the period of ups and downs.

(Amaresh Kumar Sen)
