### CHAPTER I

#### INTRODUCTION

A short review on some aspects of vitiligo :

|  |    |
|--|----|
| Section A : Vitiligo and its causative factors     | 1  |
| Section B : Mechanism of normal Skin colouration : | 15 |
| Evolutionary aspects                               | 15 |
| Cells related to pigmentation in man               | 16 |
| Regulation of pigmentation in the skin             | 20 |
| Biochemical basis of pigmentation                  | 27 |
| Possible functions of melanin                      | 34 |
| Section C : Inhibition of Pigmentation             | 36 |
| Section D : Chemotherapy of Vitiligo               | 55 |

### CHAPTER II

#### QUINONE-HYDROQUINONE SYSTEM AND PIGMENTATION

|  |    |
|--|----|
| Section A : .Quinone-hydroquinone system | 65 |
|--|----|

|   |     |
|---|-----|
| Occurrence of biologically active quinones                                    | 65  |
| Biosynthesis of Quinones  | 70  |
| Role of quinone-hydroquinone balance in electron transport                    | 72  |
| Possible role of quinone-hydroquinone balance in pigmentation                 | 76  |
| Scope of the present investigation  | 78  |
| <b>Section B : Hydroquinone level and pigmentation</b>                        | 79  |
| Introduction  | 79  |
| Experimental  | 80  |
| Results   | 83  |
| Discussion  | 85  |
| <b>Section C : Effects of quinones on tyrosinase and tryptophan pyrrolase</b> | 87  |
| Introduction  | 87  |
| Some aspects of tyrosinase:   | 88  |
| Some aspects of tryptophan pyrrolase  | 97  |
| Experimental  |     |
| Tyrosinase  | 103 |
| Tryptophan pyrrolase  | 108 |
| Results   | 111 |
| Discussion  | 113 |

CHAPTER IIICOMPARATIVE BIOCHEMICAL PARAMETERS OF  
BLACK AND ALBINO RATS IN RELATION TO  
PIGMENTATION

|   |     |
|---|-----|
| Introduction  | 114 |
| Section A : Comparison of the levels of amino acids and the enzymes related to pigmentation between black and albino rats | 118 |
| Experimental  | 119 |
| Results   | 124 |
| Discussion  | 127 |
| Section B : Comparison of the hydroquinone level in black skin and liver with that in the albino skin and liver           | 129 |
| Materials and methods   | 130 |
| Results   | 130 |
| Discussion  | 131 |
| Section C : Trace metals and pigmentation: A comparative study in Black rat with Albino rat                               | 132 |
| Introduction  | 132 |
| Materials and Methods   | 138 |
| Results   | 139 |
| Discussion  | 140 |

CHAPTER IV

|  |     |
|--|-----|
| MELANIZED LEUCOCYTES IN INDUCED DEPIGMENTATION<br>AND PSORALEN TREATED <u>Bufo melanostictus</u> | 144 |
| Materials and Methods  | 145 |
| Results  | 147 |
| Discussion   | 149 |
| <u>REFERENCES</u>  | 150 |
