I am indebted to my esteemed and learned teacher Dr. Swadesh Sharma, M.S. Professor and Head, Department of Obstetrics and Gynaecology, M.L.B. Medical College, Jhansi for whom my reverence has always been at its zenith. Her sweet nature and sympathetic attitude has contributed a lot towards the success of this work.

It is with due regards that I pay my gratitude to my respected and learned teacher and guide Dr. Mridula Kapoor, M.S., Associate Professor, Department of Obstetrics and Gynaecology, M.L.B. Medical College, Jhansi for her valuable advice and suggestions which played an important role in successful completion of the present work.

I am greatly indebted to my co-guide Dr. Sunita Aroa, M.S., Associate Professor, Department of Obstetrics and Gynaecology, M.L.B. Medical College, Jhansi for her timely advice and help.

I am thankful to Dr. Usha Agarwal, M.S. Associate Professor, Department of Obstetrics & Gynaecology, for her constant supervision and timely advice for the present work.

I am greatly indebted to my co-guide Dr. Sanjaya Sharma, M.D., Assistant Professor, Department of Obst. & Gynaecology, who has spared invaluable time in correction and guided me in each and every step, which lead to completion of this work. Without her support it would have not been possible to accomplish the project for me.
Head, Department of Pathology for his kind advice and suggestions.

I also thank my seniors and colleagues of this department for their help which lead to completion of this work.

I bow in reverence to my lady subjects who have formed the material for the present study. Nothing can replace them.

I thank Shri Phool Chandra Sachan for his help in typing the manuscript of this thesis.

Lastly I pay my regards to my parents who have supported me morally and have helped me in each and every step of life.
