My vocabulary fails when it comes to express my gratitude to all who helped in building up this thesis to its present status, yet I shall try.

I humbly wish to express my deepest gratitude for having been associated with Dr. P.K. Jain, MD, MNAMS, Assistant Professor, Department of Medicine, M.L.B. Medical College, Jhansi. I am really very lucky to have had an opportunity to work under him. In his foot steps I have found a definite path for rest of my life time, which has provided me the confidence and enthusiasm so essentially vital for successful accomplishment of this project. His constant supervision, constructive and valuable criticism, efficient and unfainting beneficance and above all his affectionate nature, heartening words and constant encouragement have made this travel delightful and possible for me.

In no less degree I owe my sincere most thanks to my Co-guide Dr. Navnit Agarwal, MD, Assistant Professor, Department of Medicine, M.L.B. Medical College, Jhansi, who for almost whole year gave me encouragement, concrete suggestions and close supervision.

It gives me great pleasure to express my sincere thanks to Dr. R.C. Arora, MD, D Sc, Professor and Head, Dr. D.N. Mishra, MD, MNAMS, FCCP, Professor, Dr. G.D. Shukla, Associate Professor (Psychiatry), Dr. Praveen Kumar

MD, D. Card, DM(Cardiology), Assistant Professor,

suggestions from time to time.

I fail in my duty if I don't appreciate and

work. I also thank my other close friends Dr. Narendra
Sharma, Dr. Nirmal Srivastava, Dr. Mahendra Singh Yadav,

It gives me special pleasure to acknowledge the

during my hours of desperation due to ever arising
problems and time consuming process. I also appreciate
and thank my wife Gyashri Devi who gave me constant
inspiration to complete this venture.

I would like to express my thanks to Mr. Ram
Sanehi for his lab assistance and Mr. Phool Chandra
