ACKNOWLEDGEMENT

I am most grateful to my Research Guide, Dr. K. Banerjee, Senior Deputy Director, National Institute of Virology, for introducing me to the fascinating field of enzymology and suggesting me such an interesting problem. The completion of this project was made possible because of his continuous deep interest, enthusiasm and understanding. I consider myself fortunate to have had such expert guidance from him.

I am pleased to express my deep sense of gratitude to the Director, Dr. K.M. Pavri, for providing me all the facilities for my work.

I take this opportunity to express my deep sense of appreciation to Dr. V.S. Padbidri, Senior Research Officer, Rickettsiology Section, for extending continuous co-operation and help and for constructive suggestions throughout the entire course of the work.

I am deeply indebted to Dr. M.K. Goverdhan, Deputy Director, Incharge of animal house and Mr. G.K. Pasham, Technician, for the continuous supply of guinea pigs for the experimental work.
I am extremely thankful to Dr. D.A. Gadkari, Senior Research Officer, and Dr. S.L. Deshmans, Research Officer, who generously helped me to standardize some of the techniques used in the study and gave me many helpful and practical suggestions whenever needed.

It is my pleasure to thank Mr. S.K. Virkar, Technical Officer, for fabricating equipment needed for the electrophoresis technique with genuine expertise.

I am thankful to Dr. V. Dhanda, Deputy Director, for providing me all the facilities of the department of Photography and Illustrations. I am particularly thankful to Mr. H.M. Shinde, photographer-cum-artist, Mr. S.K. Deshpande, Illustrator and Mr. A.S. Shinde, Laboratory Attendant from Photography Section.

The co-operation extended by the staff members of Rickettsiology Section is gratefully acknowledged. The help received from Mrs. Smita Kulkarni, Research Assistant, during the preparation of the manuscript needs special mention and is highly appreciated. Particular help received from Mr. V.N. Shinde, Technical Assistant and Mr. Karna Sahis, Laboratory Attendant, deserves special mention.
Finally, I would certainly like to express my thanks to Mrs. Reethamma A. and Miss Meena Thakker for typing the thesis meticulously. My thanks are also due to Mr. K.K. Padmanabhan who also assisted in typing. The excellent assistance received from Mrs. Smita Argade, Research Assistant, during the checking of the manuscript is highly appreciated.

Last but not the least, I wish to thank my wife, Madhuri, for her continual co-operation, understanding and encouragement during the entire course of this work.

Manohar V. Joshi
Assistant Research Officer
