LIST OF TABLES

(1) Definitions of Categories in the Structure of Intellect. ... ... 52

(2) Distribution of the Sample along Age Levels within Grades. ... ... 92

(3) Statistics used for the Age Grade Transformation of WA Scores of 30, 7th Grade Boys. ... ... 94

(4) Test Means and Standard Deviations by Grade Levels. ... ... 95

(5) Means and Standard Deviations by Age Levels. ... ... 97

(6) Analysis of Variance - Test M<sup>3</sup>comb. ... ... 99

(7) Analysis of Variance - Age Test. ... ... 99

(8) Analysis of Age Means. ... ... 101

(9) Raven's APM - Percentile Norms. ... ... 108

(10) Means, SDs and Skewness of APM Scores along Age Levels. 109

(11) Development of Creativity and Intelligence APM WA Means and their Distances from M<sup>3</sup> ... ... 111

(12) Product Moment Correlations between Intelligence and Creativity Scores. ... ... 114

(13) Correlational Data from Creativity Intelligence Distinction Studies. ... ... 115

(14) Creativity above Increasing Levels of Intelligence: Means, SDs and Correlations. ... ... 117

(15) Factor Loadings and Communalities for 10 Scores, 9 on Creativity and one on Intelligence, for 828 Boys from the Grade 7th through 11th. ... ... 125

(16) Creativity Intelligence and Mechanical Comprehension: Means, SDs and Correlations. ... ... 126

(17) Mean School Performance of Total Student Population and Its Product Moment Correlation with Cr. T. Score and APM. ... ... 137

(18) Mean Cr. T Score and APM Score of High and Low Achievers. ... ... 139

(19) Creativity, Intelligence and Personality Characteristics: Linear and Partial Correlations. 140
(20) The Total Sample Divided in Fourfold Table. ... 144
(21) Mean Ages of Four Groups. ... ... 144
(22) Items randomly chosen for detailed analysis of group behaviour (as they are worded in original form of Bernreuter's Personality Inventory). ... 145
(23) Four Groups above and below Median (Creativity x Intelligence) and Items in Personality Inventory. 146
(24) Four Groups and Differential Choice Values of Teachers. 152
(25) Means and Standard Deviations of Four Groups on Desirability Score and Analysis of Variance. 154
(26) Four Groups and Percent Proportion of Chosen Academic Subjects. ... ... 156
(27) Four Groups and percent proportion of game preference. 157
(28) Four Groups and Characteristic Hobbies. ... 158
(29) Means and Standard Deviations of Upper Extreme Groups on Age, Creativity and Intelligence. ... 168
(30) Caste Group Means on Creativity and Intelligence Scores. 171
(31) Means and Standard Deviations of Three Major Caste Groups on Intelligence Scores and Their Analysis. 172
(32) Means and Standard Deviations of Three Major Caste Groups on Creativity Scores and Their Analysis. 173
(33) Percent Caste Representation in Upper Extreme Groups. 174
(34) Means and Standard Deviations of Upper Extreme Groups on Per Capita Income. ... ... 177
(35) Three Groups and Occupation of Father. ... ... 179
(36) Three Groups and Mean Educational Level of Parents and Other Members of the Family. ... ... 185
(37) Analysis of Variance of Mean Educational Levels of Three Group Parents and Other Members of the Family. ... 186
(38) Three Groups and Distribution of Parents and Other Members in the Family, on Seven Educational Levels. 187
(39) Three Groups and Family Provision for Reading. 190
(40) Three Groups and Satisfaction with Reading Provision. 191
(41) Three Groups and Parents' Help in Studies. ... 192
(42) Three Groups and Position among Siblings. ... 194
(43) Three Groups and Family Size. ... 195
(44) Analysis of Variance. ... 195
(45) Three Groups and Choice Values of Different Occupations. 197
(46) Reasons Provided by Three Groups for Occupational Choice. ... 198
(47) Three Groups and Others' Influence on Occupational Choice. ... 200
(48) Mean and Standard Deviations of Three Groups, on Agreement Score. ... 202
(49) Analysis of Variance of Mean Agreement Scores. 202
(50) Means and Standard Deviations of Three Groups on 'Speed of Thinking', and Their Analysis of Variance. ... 208
(51) Number of Problems Mentioned by Three Groups on the Open End Question. ... 209
(52) Means and Standard Deviations of Three Groups on Bell's School Inventory. ... 214
(53) Means and Standard Deviations of Three Groups on Teacher's Ratings. ... 218
