

LIST OF GRAPHS

Graph No.	Title	Page No.
5.1	Comparison of MSCM & RSCM for the ANOVA of the questionnaire	106
5.2	Comparison of MSCM & RSCM for the ANOVA of the questionnaire	107
5.3	Deviation in the responses of MSCM & RSCM	108
5.4	Comparison of the deviation in the responses for MSCM & RSCM	109
5.5	Comparison of the Male & female Employees for the responses	111
5.6	Comparison of the Male & female Employees for the responses	112
5.7	Comparison of the Male & female Employees for the responses	114
5.8	The comparison of the employees at various designations	115
5.9	The comparison of the employees at various designations	116
5.10	Deviations in the responses by employees of diff. designations	118
5.11	Deviations in the responses of employees of diff. designations	119
5.12	Female employee's behaviour for the questionnaire	120
5.13	Female employee's behavior for the questionnaire of diff. designations	121
5.14	Deviations in the responses of the female employees at diff. designations	122
5.15	Deviations in the responses of the female employees at diff. designations	123
5.16	Comparison of the responses of all employees together (Male & Female)	124
5.17	Comparison of responses for employees together	125

5.18	Comparison of the responses of all employees together (Male & Female) with respect to different positions.	126
5.19	Deviations in the responses of the all employees for the questionnaire (Male & Female)	128
5.20	The responses from the employees of diff. age groups (Male & Female)	129
5.21	The responses from the employees of diff. age groups (Male & Female)	130
5.22	Standard Deviations for the employees of diff. age group in MSCM	131
5.23	Comparison of responses of employees of retail industries (Male & Female)	133
5.24	Comparison of responses of employees of retail industries (Male & Female)	134
5.25	Deviations in the responses of the employees in retail industries	135
5.26	Comparison of all Male employees of retail industries at various positions	137
5.27	Comparison of all Male employees of retail industries at various positions	138
5.28	Deviations in the responses of the Male employees	139
5.29	Comparison of all Female employees of retail industries at various positions	141
5.30	Comparison of all Female employees of retail industries at various positions	142
5.31	Deviations in the responses of the Female employees in retail Industries	143
5.32	Comparison of all employees in retail industries	145
5.33	Comparison of all employees in retail industries	146
5.34	Comparison of all employees in retail industries	148
5.35	Responses from the diff age group employees in retail industries	149

5.36	Responses from the diff age group employees in retail industries	150
5.37	Deviations in the response from diff. age group employees	152
