

## ACKNOWLEDGEMENTS

While selecting the research Project entitled " Performance Evaluation of Some Selected Public Enterprises in India ", I had before me two major public sector undertakings viz. Indian Petrochemical Corporation Limited and Oil & Natural Gas Commission, where performance evaluation was becoming a controversial issue. This situation provoked me to undertake the aforesaid research project, which if tackled properly, could serve some meaningful purpose for public sector enterprises in India. I shall, therefore, be failing in my duty if I do not profusely thank and express my grateful sentiment to the top management of these two major undertakings. The authorities not only helped me immensely in giving me the required information, but they also provided me invaluable assistance that was needed while the research project was in progress.

In the process of pursuing the research project, I realised that, as a researcher, I should have been better equipped with conceptual clarity. Some of the basic works of research methodology have given me an insight into research techniques and I must sincerely submit that I owe the following researchers for their invaluable works.

I am heavily indebted to those scholars whose works I have mentioned in Select Bibliography.

I would like to profusely thank Dr. C.G. Vaidya, Professor & Incharge of Management Science, University of Poona and Principal, Brihan Maharashtra College of Commerce, who inspired me and gave me every possible encouragement to complete the research project.
