

ACKNOWLEDGMENTS

I wish to express my deep sense of appreciation and gratitude to my supervisor, **Prof. P. C. Saxena**, for his insightful help and guidance at all stages of this work. He has found time and unending patience for many valuable discussions and has been a constant source of encouragement and inspiration.

I am thankful to **Prof. R. G. Gupta**, Dean, School of Computer and Systems Sciences, Jawaharlal Nehru University for providing me with all the facilities for the successful completion of this research work.

I wish to extend my hearty gratitude and thanks to **Prof. G. V. Singh** and **Prof. K. K. Nambiar** for their valuable guidance and encouragement.

I am also thankful to all faculty members and other staff of the school for their consistent help and co-operation.

In addition, I wish to extend special thanks to **Prof. K. C. Tripathy** of University of Delhi, who is largely responsible for my studying at J.N.U. He generously offered his time and assistance throughout my doctoral program.

I am also thankful to Dr. P. K. Mohanti of B.I.T., Mesra, for providing me guidance, support and computing facilities to complete this work.

My sincere thanks are also due to the experts whose suggestions/observations greatly helped me in bringing out the improvements of this work.

My thanks are also due to my brother Mr. M. C. Tripathy and a large number of friends with whom I shared important ideas on my subject and who helped in typing this manuscript.

Also, my family members merit special recognition and thanks for their cooperation and support throughout the entire period of work.

Lastly, I would like to dedicate this thesis to my mother Mrs. Kundan Tripathy, and to my wife Leena, without the support, encouragement and love of whom, this work would not have got completed.

(R. C. TRIPATHY)
