

ACKNOWLEDGEMENT

I express my whole-hearted gratitude and thanks to my guide, Dr.G.P. Sen, B.Sc. M.V. Sc. Ph.D, FIPHA ; Ex-Professor of Veterinary Public Health and Principal Scientist cum In-charge, Indian Veterinary Research Institute (ICAR), Regional Station: Calcutta, and Emeritus Scientist of Indian Council of Agricultural Research working at the Institute of Animal Health and Veterinary Biologicals, Belgachia, Calcutta for his affectionate guidance, constant inspiration and help. I am indebted to him for his valuable suggestions and constructive criticism, his unstinted support and encouragement without which it would not have been possible to complete this work and to submit the thesis in its present form.

My sincere thanks are due to Dr. P.N. Bhat, erstwhile Director, Indian Veterinary Research Institute, Izatnagar, U.P. for permitting me to avail of the CSIR Senior Research Fellowship to carry out my study in their Calcutta Centre and providing me all the necessary facilities.

*I am thankful to the Director, Indian Institute of Chemical Biology, Calcutta-700032; for supplying the non virulent strain of *Leishmania donovani*.*

My thanks to the Director, Bose Institute, Centenary Building, Calcutta-700058; for permitting me to sonicate the samples for my studies.

I express my thanks to Dr. B.B.Mallik Joint Director (Research). Indian Veterinary Research Institute, Itzanagar for his inspiration and keen interest in completing my work.

I am also grateful to Dr. S.G. Mallik, Principal Scientist and present In-charge, Indian Veterinary Research Institute, Regional Station, Calcutta; for his cooperation in continuation of this study following retirement of Prof. G.P. Sen, the guide.

Sincere appreciations are also due to Dr(Mrs) Gita Biswas, B. Sc., M.V.Sc., Ph.D., FIPHA, Assistant Professor and Scientist, Indian Veterinary Research Institute, Calcutta; for her helpful inspiration and cooperation.

Thanks are due to Dr. Debdatta Roy, for his encouragement and assistance during his service as Scientist at IVRI Regional Station, Calcutta.

My deep appreciation and thanks to Dr. Anjan Sinha, Deputy Director of Veterinary Services, Govt. of West Bengal for his constant encouragements, advice and help in organising the study, in collection of canine sera and valuable suggestions during the entire period of my study.

My special thanks to Sri A.K.Ghosh, Laboratory Assistant, IVRI Regional Station, Calcutta-37 for his painstaking assistance cultural studies and to the laboratory staff of I.V.R.I. Regional Station, Calcutta for their continued support during the entire period of this study.

I shall be failing in my duties if I do not thankfully acknowledge the painstaking endeavour taken by Miss Bratati Sen for initial typing of the manuscript and by M/S. INTEC PRINT SYSTEMS. 41, Lenin Sarani, Calcutta-700013 for Computerised Printing of the thesis till to its final print.

Photographs presented in this thesis have been made by M/S Lansdown Art Studio and M/S Charu Studio to whom the author expresses her gratitude.

I am taking this opportunity to express my thanks to Mrs Sutapa Chatterjee and Miss Ranjana Chatterjee for their constant help and encouragement during the course of this study.

I express my indebtedness and gratitude to my respected elders, relatives and well wisher who supported and encouraged me all along to pursue this study.

Sincere thanks to my child Pallavi Majumder for her understanding help and cooperation without which it would have been impossible to continue this study.

Lastly, I convey my heartfelt thanks to my husband, Mr. Indranath Majumder, M.A., M.B.A., Senior Manager, India Tourism Development Corporation, Calcutta for his constant inspiration, encouragement and coordination throughout the course of my study.

Date: August '1994.
