List of Figures

Chapter 1

Figure 1.1 Illustration of sensing network design 6
Figure 1.2 (Fig. a) Illustrating reference model design with pre-defined interfaces And (Fig. b) Merging of two layers by breaking of ISO reference Architecture 10
Figure 1.3 Illustration of reference design 12
Figure 1.4 Cross-layer system of the reference design 13
Figure 1.5 Cycling of Duty recitation in MAC Approach 18
Figure 1.6 Scheme of Gossiping 24
Figure 1.7 SPIN: Sensing Protocol for Information thru Negotiation 24
Figure 1.8 Operation of EADV 27
Figure 1.9 Overall Methodology of the Thesis 38

Chapter 3

Figure 3.1 LEACH process shows set-up, steady state sections used multi-hop and direct transmission 76
Figure 3.2 Functional Flow chart of the PSO algorithm for setting up a group 85
Figure 3.3 Concept of Cross-layer structure 92
Figure 3.4 Concept of Cross-layer optimization structure 94

Chapter 4

Figure 4.1 Group exhibitions in Elephants Clan 99
Figure 4.2 Matriarch of Elephant (right) protecting members of the Herd from danger 101
Figure 4.3 Trunk raised in threatening stance 103
Figure 4.4 Temporal gland secretions 104
Figure 4.5 Using trunk to pull vegetation off tall tree 106
Figure 4.6 Elephant reflection 107

Chapter 5

Figure 5.1 Wireless Sensor Network Lifespan Analysis 123
Figure 5.2 Wireless Sensing Node’s decay rate Analysis 123
Figure 5.3 Route Optimization Overhead Analysis 125
Figure 5.4 Interaction Overhead Analysis 125
Figure 5.5 Active Node Ratio in the Test Bed Observed at Constant Simulation Slots 126
Figure 5.6 Processing Delay Analysis 127
