Tamil Nadu State Archives. The Tragedy of the Commons concept was; first expressed by the Rev. William Forster Lloyd in Two Lectures on the Checks to Population, Delivered Before the University of Oxford, Michaelmas Term, 1832 (Oxford : Collingwood, 1933). This rare text was reprinted in Augustus M. Kelly Economic Classics, New York, 1968. American economist Garrett Hardin revived the idea and expounded on it in his famous essay, "The Tragedy of the Commons, which has

xi
been reprinted in numerous anthologies. Hardin's Exploring New Ethics for Survival: The Voyage of the Spaceship Beagle (New York: Viking, W72) is a booklength elaboration of the essay.
