ACKNOWLEDGEMENT

The words of Revered Prof. Prem Saran Satsangi Sahab, Chairman, Advisory Committee on Education, Dayalbagh ‘…..Dreams are inspired by Intuitive Consciousness’, resonated in my ears and encouraged me to take up the study.

I am indebted to my Guide Dr. Sanjay Bhushan who has been the fountain head of strength during various critical occasions when I lost my enthusiasm, became weak and reached the state of confusion and distress. By his own undaunted courage, he arrested my desire to give up and motivated me to complete my research.

My Co-Guide, Prof Sanjeev Swami has converted the loser in me by indicating the path to recovery and victory. His encouragement energized me even during dejection, anxiety and work-overload.

Under the supervision of my guide and co-guide, I could explore and venture into the unknown. The entire period of my study was a great journey. Having been associated with my guides since last three years, I became aware of their eminent management expertise, immense capacity in creative teaching and able guidance which gave direction to my study all through. Simply owing to the presence of my guides, things moved and results occured generating alertness, awareness and consciousness.

My indebtedness to the Merciful Supreme Father is beyond words. It is only His Holiness’ Supreme Grace that inspired me to take up this work and my efforts completely guided by Dr. Sanjay Bhushan and Prof. Sanjeev Swami bore fruit of success in accomplishing this work.

Words are incapable to express the role played by my Father in the accomplishment of this study. He has been the most responsible, multifaceted pillar of strength and resource with unconditional support, shelter and treasure house of solutions.
My children have allowed me the time and patience to pursue the study. Without their perseverance and support, it would have been difficult to think of undertaking the study at the first place.

I am extremely grateful to all my friends and acquaintances that helped me in arranging visits to various clusters for data collection. This research would not have been possible without the support of the valuable, unconditioned and consistent assistance rendered to me by them.

I would like to convey my sincere thanks to the Director D.E.I. Prof. P. K. Kalra, the Ex-Director Prof. V.G. Das, and the Dean of the Faculty of Social Sciences - Prof. S. Swami and the staff and students of the Dayalbagh Educational Institute.

Last but not the least, I pay my deepest thanks to all my friends and fellow researchers in the department who have helped me directly or indirectly during the tenure of my research study.
