

ACKNOWLEDGEMENT

This thesis has taken its shape due to the inspiration drawn from many individuals. It is with utmost reverence and whole heartedness that I acknowledge their help and invaluable assistance.

My foremost thanks go to my guide **Dr. G. RAVI**, Professor of Electrical and Electronics Engineering, Pondicherry Engineering College, without whose efforts, this dissertation would not have been a reality. Words are inadequate to describe his care, patience and involvement at every stage of this accomplishment.

My gratefulness is due, to **Dr. P. ARAVINDA BABU**, Professor of Electrical Engineering, Annamalai University and **Dr. R. GNANADASS**, Professor of Electrical and Electronics Engineering Pondicherry Engineering College, Puducherry for being a pioneering source of encouragement and providing a matchless environment in realising this task.

It is the time to show my gratefulness to **CEO, M. SARAVANAN** of V.R.S.College of Engineering and Technology for the permission granted to carry out the research work. My sincere thank to principal **Dr.N.ANBAZHAGAN** of V.R.S. College of Engineering and Technology for the support given throughout the research period.

I wish I could put all the stars in the Universe in a vault to express with each one of them my love for my wonderful **wife** and **children**. Thank you for the best gift of my life and for the support in making my dream comes true.

My profound thank go to my **Parents and Friends** for their ever-loving solidarity in the completion of this research pursuit and above all my wholehearted thanks to **Providence**.

SUBRAMANIAN A
