List of TABLES

Chapter 1

Table 1.1  
*In vivo* capacitation period in different mammals. [pg 3]

Table 1.2  
Definition of the different velocity parameters of a spermatozoon determined using a CASA, to study hyperactivation. [pg 6]

Table 1.3  
Proteins implicated in capacitation. [pg 23]

Chapter 2

Table 2.1  
Composition of Tyrode's medium. [pg 29]

Table 2.2  
Composition of PHE. [pg 29]

Table 2.3  
Composition of 2D gel mix. [pg 32]

Table 2.4  
Composition of 2D lysis and overlay buffer. [pg 32]

Table 2.5  
Reagents for *in vitro* dehydrogenase assay for hamster sperm E3. [pg 37]

Chapter 3

Table 3.1  
Reverse activity of hamster sperm E3 (HsE3) under different conditions. [pg 51]

Chapter 4  
No tables

Chapter 5  
No tables
