Acknowledgements

My sincerest gratitude to my supervisor Dr. Vanga Siva Reddy for his confidence in me and for allowing me to work independently. His patience, intellectual guidance, and constructive instructions gave me encouragement and strength during this study.

I would like to thank Prof. A. Falaschi, former Director General ICGEB, Trieste, Italy for providing me with the fellowship to carry out my research. I also thank Prof. V. S. Chauhan, Director, ICGEB, New Delhi and Mrs. H. S. Narayanan Chief of Administration, ICGEB, New Delhi for providing me with the opportunity to work at ICGEB. Their support at various stages in the past four years is duly acknowledged.

I am deeply indebted to Dr. S. Leelavathi for her encouragement and suggestions regarding research and also helping me with good life away from home. Her valuable suggestions will remain with me throughout my life.

My heartfelt gratitude to Prof. S. K. Sopory, Dr. Raj Bhatnagar, Dr. Sunil Mukherjee, Dr. Suresh Nair, Dr. Dinesh Gupta and all the scientists who introduced me to various fields of biological sciences and gave valuable suggestions and helped me during this study.

I thank Prof. M. V. Rajam, Department of Genetics, University of Delhi, South Campus for providing Pythium aphanidermatum culture.

All my appreciation goes to my labmates who have been supporting, encouraging and helping me to learn throughout my stay. My special thanks to Dr.s Ratna Kumria and Olga Fedorowicz for listening to me and being just what they are best at - my best friends. I am thankful to Dr. Affif Hassari for sequencing the AFP1-Ca gene. My thanks to Dr. Nguyen Huu Tam for making the pICGEB-AFP1-Ca construct. I am thankful to Amit and Sachin for their presence and vital help that made my research easy. Special thanks to Vijay for helping me out with all troubleshooting during my experiments. I am thankful to Dr. Dolendro Singh for teaching me patience. I would also like to extend my thanks to all the members of Insect Resistance Group for helping me on various occasions. I am thankful to Prakash ji, Rajendra and Ramesh for their cooperation.
Seniors like Dr.s Sharik Rahil, Tarannum Ahmed, Wricha Tyagi, and Neema Aggarwal made my learning easier. I greatly value the help and friendship extended by my batch mates. Special thanks to Anuja, Atish, Ajay, Divya, Milan, Rabi, Reetesh, Shilpi and Suchi. I am also thankful to my juniors who made my stay enjoyable. My thanks to Gawtham who helped me making the 3D structure of AFP1-Ca.

My thanks to Gita, Susan, Radha, Tina, Richa, Philomena, Rekha, Pratibha, Alok ji., Sovan and Bharat for their assistance. I am thankful to all the members of staff of ICGEB maintenance who helped at every step of my research by keeping all the instruments working.

Last, but not the least, I would like to thank all the members of my family for supporting me all these years. My parents, my sister and Faraz are the ones who made this thesis a reality by having faith in me which kept all my pores alive with courage to strive and achieve higher goals in life. I special thanks to Haseeb, my lovable husband for being a wonderful person and never letting me feel alone during tough times of my research and life away from him and all the family members.
