A Note of Clarification on the Presentation
-------------------------------------------

We have got the final draft typed on the Word Processor. Since there is no facility of underlining words closely we could not underline the published material in the footnote and non-English words in the text. All non-English words in the text have been put in single quotes and the name of the newspapers and journals or any published material in double quotes. In case of any doubt or difficulty please refer to the select bibliography. In the bibliography all the articles have been put in single quotes and other published material in double quotes. The contemporary newspapers, periodicals and journals have been typed without any quotation marks.
