List of Tables

Table 2.1: GDP per Capita ($), IMR and LEB (year) across South Asian Countries

Table 2.2: Percentage of population using improved sanitation and drinking water facility 2008

Table 2.3: Percentage of government expenditure on health as total expenditure on health, 2000-2009

Table 2.4: Density of Nursing and midwifery personnel/10000population

Table 2.5: Measles Immunization, Under-five mortality due to Diarrhea and Pneumonia, 2008-2009

Table 2.6: Infant Mortality rate Across Major Indian States, 2008

Table 2.7: Access to Toilet and Drinking water across Major Indian States

Table 2.8: Unmet need for Family Planning and Institutional Delivery across Major Indian States

Table 2.9: Full Immunization, Sub Center Infrastructure across Major Indian States

Table 2.10: Per cent of backward classes and population density/square kilometer across Major Indian States

Table 2.11: Utilization of Public Facilities and NSDP (Rs.) across Major Indian States

Table 3.1: Child Immunization schedule

Table 3.2: Immunization coverage by card and card + history for the children aged 12-23 months, West Bengal, 2007-08

Table 3.3: Recommended and Average interval across the different dosages of Vaccines as par card only, West Bengal, 2007-08
Table 3.4: Dropout rate in West Bengal, 2007-08

Table 3.5: Background Characteristics by Immunization status (Card + History), West Bengal, 2007-08

Table 3.6: Background characteristics of children by Dropout Rates, West Bengal, 2007-08 (in per cent)

Table 3.7: Background Characteristics of children for Non-Polio and Polio immunization (Card+ History)

Table 3.8: RRR of demand and supply side barriers non-month specific Polio and non-Polio, and Full Immunization case, Reference category: Full coverage

Table 3.9: Overall Coverage and Month specific Coverage

Table 3.10: Background Characteristics of children for month specific vaccines

Table 3.11: Odds of child being fully immunized for month-specific Polio, non-Polio and combined all cases

Table 3.12: Regression results of non-month specific and month specific cases together across the vaccines type and coverage

Table 4.1: Summary of DEA results for Sub Centers

Table 4.2: Group wise Technical efficiency and technically efficient SC as % of Total SC

Table 4.3: Summary of input slacks on Average

Table 4.4: Mean Technical Efficiency and TCR for Sub centers in West Bengal

Table 5.1: Baseline Characteristics for Immunization (Card+ History) for Group 1 districts

Table 5.2: Baseline Characteristics for Immunization (Card+ History) for Group 2 districts
Table 5.3: RRR of demand and supply side barriers non-month specific Polio and non-Polio, and Full Immunization case, Reference category: Full coverage for Group 1

Table 5.4: RRR of demand and supply side barriers non-month specific Polio and non-Polio, and Full Immunization case, Reference category: Full coverage For Group 2

Table 5.5: Odds of child being fully immunized by month specific All, Polio and non-Polio cases for Group 1

Table 5.6: Odds of child being fully immunized by month specific All, Polio and non-Polio cases for Group 2
