ACKNOWLEDGEMENTS
I owe my sincerest thanks and heartfelt gratitude to Dr. H. M. Bhattacharyya, B.V.Sc. & A.H. (Hons.), N.D.P.V.M., Ph.D. (Cal.), Virologist, All India Coordinated Research Project for studying Foot and Mouth Disease, Calcutta Centre, Calcutta-37 for his affectionate guidance, sustained interest and constant encouragement in course of the entire work.

My deep sense of reverence and gratefulness to Prof. D. N. Sengupta, M.B.B.S., D.Bact. (Lond.), Ph.D. (Cal.), Retired Prof. of Microbiology, All India Institute of Hygiene and Public Health, Calcutta-12 who inspired me with invaluable suggestions and constructive criticism in carrying out the work, but for which the piece of work could not be completed successfully.

I am grateful to Mr. Pradip R. Majumdar, Apt. 10M, 100, Memorial Parkway, New Brunswick, New Jersey (U.S.A.) for supplying Salmonella Polyvalent O Sera and H Sera (Difco) to conduct my work.

I am also grateful to Dr. S. N. Saxena, Head of the Division, National Salmonella & Escherichia Centre, Central Research Institute, Kasauli (Himachal Pradesh) for serotyping of the Salmonella organisms isolated during the course of work.

I am thankful to Dr. B. N. Roy, Dr. J. L. Ganguli, Dr. S. K. Das, Dr. P. Mandal, Dr. U. K. Bhattacharyya and Dr. R. N. Lahiri & Dr. M. K. De Sarkar, for their valuable help in course of my work.
I wish to thank Mr. Bhanu Chakraborty of Lanadowne Art Studio, Calcutta-17 for photomicrographical works.

My sincere thanks are due to Sri Bipin Behari Das, Typist, Department of Pathology for kindly typing the entire manuscript of the dissertation.

Finally I wish to express my thanks to my wife and children for their cooperation and inspiration during the work.

March 23, 1983.
