ACKNOWLEDGEMENT

I express my sincere gratitude to,

Dr. D.N. Ganguly, the Head of the Department of Zoology, University of Calcutta, for providing laboratory facilities for carrying out the research work;

Dr. A.S. Mukherjee, Ph.D. for his guidance and encouragement throughout the investigations;

Drs. B.B. Mukherjee (Canada), C.K. Pyne (France) and S.B. Sarkar (West Germany) for kind gifts of 'Kodak' AR 10 Stripping film;

Drs. D. Sinha (U.S.A), C. Pelling and W. Beermann (MPI für Biologie) for their kind gift of Actinomycin and other chemicals;

Prof. S.B. Nandi, University of California, Berkeley for kind gift of Dicyandiamide;

all my colleagues in the Genetics Research Laboratory for criticism and encouraging co-operation;

Department of Atomic Energy, Govt of India, Trombay for supporting the work by a grant (Scheme No. 10/14/66-G) to Dr. A.S. Mukherjee and a senior fellowship (Sanction No. 22/11/70-G) to me.
