ACKNOWLEDGEMENT

THE author expresses her gratitude to her research guide Dr. Jayasree Roy Choudhury, MBBS., Ph.D., D.Sc., MAMS., FAMS., Director, Chittaranjan National Cancer Research Centre, Calcutta for her suggestions and invaluable guidance throughout the course of the present investigations.

The author values highly the fellowships (both JRF and SRF) awarded to her by the CSIR, New Delhi, and she owes a great debt to it.

She is very thankful to Dr. Samar Chakrabarti, Sec. Cytol. & Mol. Genet., Deptt. of Zoology, University of Burdwan for helpful discussions and animating cooperation during the course of the present investigations.

She is also thankful to Mr. Pulin Pal, Smt. Shipra Guhathakurta and Smt. Maitrayee Guhathakurta of the Tumour Biology Deptt., and to Mr. N. Saha of Photography Deptt., CNCRC., Calcutta for the excellent spirit of co-operation they extended in connection with the preparation of the thesis.

Anjali Chakrabarti
