ACKNOWLEDGEMENTS

The candidate is greatly indebted to Dr Siddhartha Ganguli, Honorary Bioengineer and Principal Investigator, Bioengineering Unit, University College of Medicine, University of Calcutta, for his valuable guidance and advice in conducting the present studies and preparing this dissertation. Thanks are due to Prof. K.S. Bose, Professor and Head of the Department of Orthopaedics, University of Calcutta, and also to Dr T.K. Mitra, Reader, Department of Applied Physics, University of Calcutta, for their constant encouragement and illuminating suggestions throughout the work.

Help and assistance provided by the candidate’s co-researchers at the Bioengineering Unit — Messrs. A.K. Ghosh, S. Chakraborty, S. Sen and A. Goswami in conducting the experimental work, and the trouble taken by Mr A.K. Chowdhury in typing out the thesis are thankfully acknowledged. Cooperation of the staff of the Computer Centre of Calcutta University is worthy of a special mention.

Acknowledgements are due to the Vice-Chancellor, Members of the D.Phil. Committee, and Head of the Department of Applied Physics, University of Calcutta, for enabling the candidate to present this interdisciplinary work for a Doctor of Philosophy (Technology) degree of the said university. The research studies reported here would not have been possible without the financial assistance provided by the Science and Engineering Research Council, Department of Science and Technology, Government of India for the
Research Scheme on "Development of Objective Methods for Performance Evaluation of Lower Extremity Handicapped", of which the present project formed a part. The support of the said authorities is therefore, being gratefully acknowledged.

Thanks are due to those normal and lower extremity handicapped persons who offered themselves to be the subjects for the experimental investigation. Finally, deep gratitude is expressed to the candidate's family members for their cooperation throughout the tenure of the research work presented here.

DEWAKI NANDAN TIBAREVALA
