ACKNOWLEDGMENTS

I write these words as a token of gratitude to all the people who have always been supportive and helpful to achieve this goal. Although this eulogy is insufficient, I preserve an everlasting gratitude to all of them.

It is indeed my honour to express profound gratitude to my guide and Principal Investigator of this DAE-BRNS funded Research Project, Dr. M. G. Shitole, Former Professor and Head, Department of Botany, University of Pune for his guidance, constant encouragement, valuable advises and unending support during course of this study. His nature allowed me working with liberty and creative criticism enriched the quality of scientific component of this study.

The mere words are insufficient to express my indebtedness and deep sense of gratitude to Prof. P. B. Kavikishor, Department of Genetics, Osmania University, Hyderabad for his eternal guidance and encouragement. I can never forget his guidance in learning many new techniques in the area of molecular biology. I am thankful to him for allowing me to use P5CS construct and providing the lab facilities and infrastructure, needed to complete parts of this research project.

I am most gratified to Dr. Narendra Jawali, Molecular Biology Division, Bhabha Atomic Research Centre, Mumbai, DAE Departmental Coordinator of this research project. I take this opportunity to thank him for his timeless guidance and help to carry out this work.

This research work would not have been possible without the financial support from Board of Research in Nuclear Sciences, Department of Atomic Energy (DAE-BRNS), Mumbai, Government of India. I especially thank them for providing me the financial support in the form of Junior Research Fellowship.

I express my indebtedness to Prof. G. S. Chinchanikar for his constant help and valuable suggestions during the course of the work. I am very much grateful to Dr. R. K. Sairam for his help and guidance in biochemical analysis.

I sincerely thank Dr. B. B. Chaugule, Head, Department of Botany, University of Pune for allowing me to use the facilities in the Department. I also would like to acknowledge the help from Dr. K. V. Krishnamurthy, Institute of Bioinformatics and Biotechnology, University of Pune for his help in designing the proposal and experiments for this study.
also would like to express my sincere thanks to Dr. T. D. Nikam, Co-Investigator of this research project for his constant help and guidance during execution of this project.

I wish to thank Dr. Vidya Gupta, PMB Unit, National Chemical Laboratory for allowing me to work and learn Plant Molecular Biology Techniques in her lab. I am grateful to Radhika, PMB Unit, NCL for her help in learning Plant Molecular Biology Techniques. I sincerely thank Dr. C. Latha, Indian Institute of Science, Bangalore for helping me to carry some of the experiments.

I take this opportunity to thank my senior lab-mate Dr. Gadi Jogeswar at Department of Genetics, Osmania University, Hyderabad for his help and guidance in transformation work, I also thanks my lab-mates and friends especially Surender, Prashanth, Dr. Amita Jain, Sirisha, Sunitha, Jalaja, Prasad and Ranadheer, working at Department of Genetics, Osmania University, Hyderabad for their constant help and encouragement.

This doctoral research would not have been a reality without the cooperation and help of my close friends, seniors and lab-mates Digambar, Dr. Ebrahimi, Prema, Deshmukh Sir, Hase Mam, Ghayal Mam, Dr. Savita, Smita Punekar, Dr. Sandeep, Dr. Dhanashree, Jayashree, Sagar Datir, Dr. Swati, Ravi, Smita and Ravikiran. I thank them all for standing by my side in all ups and downs of my stay. My thanks and regards are for my current physiology lab-mates and friends.

I sincerely thank the authorities of Saline Land Research Station, Panvel and Regional Rice Research Station, Karjat for providing certified seeds of local indica rice genotypes.

I would like to express my deep gratitude to my parents and uncle Late Shri Rakesh Malik, whose blessings are always with me all the way. My career would not have progressed in this direction and to this level without their help and encouragement. I am unable to find the words to write thanksgiving quotes to my best friend, my better half Dr. Varsha for everything, I could have imagined. I also would like to express my love and affection to my little angel, my daughter Vinisha, who always makes me happy and just by seeing her I always forgot my stress. Mere words are insufficient for the undying love and everlasting support given by my in-laws.

With this little eulogy, I have tried to express my everlasting gratitude towards all the people who deserve the credit of escalating my career to the height where I stand today.

Vinay Kumar
