

# List of Tables

- Table1.1** Typical physical parameters of solar quiescent prominences and their fine structures.
- Table1.2** Historic Eclipse Observations
- Table 2.1** LASCO C1, C2 and C3 details
- Table4.1** Prominence Events and THE Associated CMEs
- Table4.2** Summary of Statistical Properties of the Prominence Events
- Table4.3** CME Core Association Using NORH and LASCO Data
- Table 5.1** Annual average and median speeds of prominences and the associated CMEs during 1997-2006.
- Table 5.2** Annual average and median widths of prominences and associated CMEs during 1997-2006.
- Table 5.3** The average magnitude of latitudes of prominences and the associated CMEs during 1997-2006.
