I would like to express my heartfelt gratitude to my caring father and my beloved sir, one builds my ideological base and other is responsible for setting the objective of my life. I am fortunate enough to get sir as supervisor of this research work. This thesis may never been completed without his kind support and active involvement in every steps of the research.

I am highly obliged to my wife, who ungrudgingly tolerated my persistent absence from her life while I was doing my research work. She is my inspiration and at the same time greatest critic too. I am beholden to my mother, who supported me in all my endeavours, including my research work.

I am extremely grateful to my friend and colleague Mr. Sanjay Nag and Mr. Sumit Das, Research Scholar, University of Calcutta for their unconditional support and expertise. I am also thankful to Mr. Sisir Chatterjee, ex-faculty, Visva-Bharati University for his support related to mathematical and statistical part of the thesis. I am also sincerely thankful to Dr. Pradip Saha, MD (Radiology), Ex-Lecturer, R. G. Kar Medical College, University of Calcutta for extending every possible help to accomplish this research work.

I would like to express my gratitude to the respected faculties and staff members of the department of Computer Science and Engineering, University of Calcutta who have been very supportive.

Finally, there are a number of people who have, in one way or another helped me in different phases of research and made it possible for me to write this thesis, so, I am thankful to all of them.
