Table of Contents

I List of Graphs .................................................. 14
II List of Tables .................................................. 28
III List of Publications .......................................... 48
IV List of Probable Publications ......................... 49
V List of Abbreviations ........................................ 50

1 Introducing the Problem ......................................... 51
  1.1 General Discussion on Risk and Insurance ............ 51
  1.2 Discussion on Underwriting Cycle – Different Measures to Determine Pattern ............... 57
  1.3 Overview on Global and Indian Non-Life Insurance Scenario ........................................ 60
  1.4 A Delineation of the Outline of Content of Other Chapters ........................................ 66

2 Review of Literature ............................................. 68
  2.1 Introduction .................................................. 68
  2.2 Research Work in the Non-life Insurance Field .......................................................... 68
    2.2.1 Review of Research on Actuarial Aspects of Non-life Insurance .................................. 69
    2.2.2 Review of Research on Marketing and Pricing Aspects of Non-life Insurance .................. 76
  2.3 Research Work on Underwriting Cycle .................. 79
  2.4 Research Direction on Non-life Insurance in Indian Scenario ...................................... 87
  2.5 Research Gap Direction ................................... 91
  2.6 Scope of this Research Work ............................. 91

3 Methods and Methodologies .................................... 93
  3.1 Introduction .................................................. 93
  3.2 Regression and Forecasting Models .................... 95
  3.3 Data Source ................................................ 123
  3.4 Tools .......................................................... 124

4 Study on Underwriting Cycle Pattern in Combined Non-Life Insurance ............................. 125
  4.1 Introduction .................................................. 125
    4.1.1 Performances of Non-life Insurance Companies at a Glance ................................... 126
      4.1.1.1 Performance of General Insurance Corporation of India ..................................... 127
      4.1.1.2 Performance of Public Non-life Insurance Companies ........................................ 132
      4.1.1.3 Performance of Private Non-life Insurance Companies ....................................... 139
    4.1.2 General Discussions on the Statistical Study ......................................................... 140
  4.2 Results and Discussion ...................................... 141
    4.2.1 Analysis of Non-life Insurance Companies Performance (Combined Data) Using Non-ARCH/Non-GARCH Models ................................................. 141
      4.2.1.1 General Insurance Corporation (Performance of Re-insurer) .................................. 141
4.2.1.1 Modelling Data on Earned Premium
4.2.1.2 Modelling Data on Total Income
4.2.1.3 Modelling the parameter Incurred Claims
4.2.1.4 Modelling the parameter Underwriting Profit/Loss
4.2.1.5 Modelling the parameter Combined Ratio

4.2.1.2 Analytical Study on the Combined Performance of 4 Main Public Non-life Insurance Companies
4.2.1.2.1 Performance of the Public Non-life Insurance Companies – Net Premium Income
4.2.1.2.2 Performance of the Public Non-life Insurance Companies – Incurred Claims
4.2.1.2.3 Performance of the Public Non-life Insurers – Investment Income
4.2.1.2.4 Performance of the Public Non-life Insurers – Operating Expenses
4.2.1.2.5 Performance of the Public Non-life Insurers – Underwriting Profit/Loss
4.2.1.2.6 Performance of the Public Non-life Insurers – Profit After Tax
4.2.1.2.7 Performance of the Public Non-life Insurers – Combined Ratio

4.2.1.3 Modelling Performance of the New India Assurance Company
4.2.1.3.1 Modelling Data on Net Premium Income
4.2.1.3.2 Modelling Data on Incurred Claims
4.2.1.3.3 Modelling Data on Investment Income
4.2.1.3.4 Modelling Data on Operating Expenses
4.2.1.3.5 Modelling Data on Underwriting Profit/Loss
4.2.1.3.6 Modelling Data on Profit after Tax
4.2.1.3.7 Modelling Data on Combined Ratio

4.2.1.4 Modelling Performance of the National Insurance Company
4.2.1.4.1 Modelling Data on Premium Income
4.2.1.4.2 Modelling Data on Incurred Claims
4.2.1.4.3 Modelling Data on Combined Ratio

4.2.1.5 Modelling Performance of the Oriental Insurance Company
4.2.1.5.1 Modelling Data on Premium Income
4.2.1.5.2 Modelling Data on Incurred Claims
4.2.1.5.3 Modelling Data on Combined Ratio

4.2.1.6 Modelling Performance of the United India Insurance Company
4.2.1.6.1 Modelling Data on Premium Income
4.2.1.6.2 Modelling Data on Incurred Claims 182
4.2.1.6.3 Modelling Data on Combined Ratio 183

4.2.1.7 Modelling Combined Performance of the Private Non-Life Insurance Companies (P.N.L.I.C)
4.2.1.7.1 Modelling Data on Premium Income for P.N.L.I.C. 184
4.2.1.7.2 Modelling Data on Investment Income for P.N.L.I.C. 186
4.2.1.7.3 Modelling Data on Incurred Claims for P.N.L.I.C. 188
4.2.1.7.4 Modelling Data on Operating Expenses for P.N.L.I.C. 189
4.2.1.7.5 Modelling Data on Underwriting Profit and Loss for P.N.L.I.C. 191
4.2.1.7.6 Modelling Data on Profit after Tax for P.N.L.I.C. 192
4.2.1.7.7 Modelling Data on Combined Ratio for P.N.L.I.C. 194

4.2.1.8 Performance of the ICICI Non-Life Insurance
4.2.1.8.1 Modelling Data on Premium Income 195
4.2.1.8.2 Modelling Data on Incurred Claims 196
4.2.1.8.3 Modelling Data on Combined Ratio 198

4.2.1.9 Performance of Royal Sundaram
4.2.1.9.1 Modelling Data on Premium Income 199
4.2.1.9.2 Modelling Data on Incurred Claims 201
4.2.1.9.3 Modelling Data on Combined Ratio 202

4.2.1.10 Performance of Reliance Non-Life Insurance
4.2.1.10.1 Modelling Data on Premium Income 204
4.2.1.10.2 Modelling Data on Incurred Claims 205
4.2.1.10.3 Modelling Data on Combined Ratio 206

4.2.1.11 Performance of IFFCO-Tokyo Non-Life Insurance
4.2.1.11.1 Modelling Data on Premium Income 208
4.2.1.11.2 Modelling Data on Incurred Claims 209
4.2.1.11.3 Modelling Data on Combined Ratio 211

4.2.1.12 Performance of TATA Non-Life Insurance Company
4.2.1.12.1 Modelling Data on Premium Income 212
4.2.1.12.2 Modelling Data on Incurred Claims 213
4.2.1.12.3 Modelling Data on Combined Ratio 215

4.2.1.13 Performance of Bajaj Non-Life Insurance
4.2.1.13.1 Modelling Data on Premium Income 216
4.2.1.13.2 Modelling Data on Incurred Claims 218
4.2.1.13.3 Modelling Data on Combined Ratio 219

4.2.1.14 Performance of Cholamandalam Non-Life Insurance
4.2.1.14.1 Modelling Data on Premium Income 220
4.2.1.14.2 Modelling Data on Incurred Claims 222
4.2.1.14.3 Modelling Data on Combined Ratio 223
| 4.2.1.15 | Performance of HDFC Non-Life Insurance Data | 225 |
| 4.2.1.15.1 | Modelling Data on Premium Income | 225 |
| 4.2.1.15.2 | Modelling Data on Incurred Claims | 226 |
| 4.2.1.15.3 | Modelling Data on Combined Ratio | 228 |
| 4.2.2 | Analysis of Non-life Insurance Companies Performance (Combined Data) using Econometrics Models (ARCH/GARCH) | 229 |
| 4.2.2.1 | Modelling Performances of General Insurance Corporation (GIC) | 229 |
| 4.2.2.1.1 | Analysis of Premium Income | 229 |
| 4.2.2.1.2 | Analysis of Incurred Claims | 230 |
| 4.2.2.1.3 | Analysis of Combined Ratio | 230 |
| 4.2.2.2 | Modelling Performances of Public Insurance Companies | 231 |
| 4.2.2.2.1 | Analysis of Premium Income | 231 |
| 4.2.2.2.2 | Analysis of Incurred Claims | 232 |
| 4.2.2.2.3 | Analysis of Combined Ratio | 232 |
| 4.2.2.3 | Modelling Performances of Private Insurance Companies | 233 |
| 4.2.2.3.1 | Analysis of Premium Income | 233 |
| 4.2.2.3.2 | Analysis of Incurred Claims | 233 |
| 4.2.2.3.3 | Analysis of Combined Ratio | 234 |
| 4.2.2.4 | Discussion on Fit Results of ARCH/GARCH Models on Non-life Insurance Data | 234 |

4.3 Resume  

5 Study on Underwriting Cycle Pattern in Fire Insurance  
5.1 Introduction  
5.1.1 A Detailed Delineation on Perspective  
5.2 Results and Discussion  
5.2.1 Combined Performance of Public and Private Fire Insurers  
5.2.1.1 Modelling Premium Income Data  
5.2.1.2 Modelling Incurred Claims Data  
5.2.1.3 Modelling Combined Ratio Data  
5.2.2 Performance of Public Fire Insurers  
5.2.2.1 Modelling Premium Income Data  
5.2.2.2 Modelling Incurred Claims Data  
5.2.2.3 Modelling Combined Ratio Data  
5.2.3 Performance of New India Assurance  
5.2.3.1 Modelling Premium Income Data  
5.2.3.2 Modelling Incurred Claims Data  
5.2.3.3 Modelling Combined Ratio Data  
5.2.4 Performance of National Insurance Company  
5.2.4.1 Modelling Premium Income Data  
5.2.4.2 Modelling Incurred Claims Data  
5.2.4.3 Modelling Combined Ratio Data  
5.2.5 Performance of Oriental Insurance Company  
5.2.5.1 Modelling Premium Income Data  
5.2.5.2 Modelling Incurred Claims Data
5.2.5.3  Modelling Combined Ratio Data 263
5.2.6  Performance of United India Insurance Company 264
  5.2.6.1  Modelling Premium Income Data 264
  5.2.6.2  Modelling Incurred Claims Data 266
  5.2.6.3  Modelling Combined Ratio Data 267
5.2.7  Performance of the Private Fire Insurers 269
  5.2.7.1  Modelling Premium Income Data 269
  5.2.7.2  Modelling Incurred Claims Data 270
  5.2.7.3  Modelling Combined Ratio Data 271
5.2.8  Performance of ICICI in Fire Insurance Sector 273
  5.2.8.1  Modelling Premium Income Data 273
  5.2.8.2  Modelling Incurred Claims Data 274
  5.2.8.3  Modelling Combined Ratio Data 275
5.2.9  Performance of Royal Sundaram in Fire Insurance Sector 277
  5.2.9.1  Modelling Premium Income Data 277
  5.2.9.2  Modelling Incurred Claims Data 278
  5.2.9.3  Modelling Combined Ratio Data 280
5.2.10  Performance of Reliance Non-Life Insurance in Fire Insurance Sector 281
  5.2.10.1  Modelling Premium Income Data 281
  5.2.10.2  Modelling Incurred Claims Data 283
  5.2.10.3  Modelling Combined Ratio Data 284
5.2.11  Performance of IFFCO-Tokyo in Fire Insurance Sector 286
  5.2.11.1  Modelling Premium Income Data 286
  5.2.11.2  Modelling Incurred Claims Data 287
  5.2.11.3  Modelling Combined Ratio Data 289
5.2.12  Performance of TATA-AIG in Fire Insurance Sector 290
  5.2.12.1  Modelling Premium Income Data 290
  5.2.12.2  Modelling Incurred Claims Data 294
  5.2.12.3  Modelling Combined Ratio Data 292
5.2.13  Performance of BAJAJ in Fire Insurance Sector 294
  5.2.13.1  Modelling Premium Income Data 294
  5.2.13.2  Modelling Incurred Claims Data 296
  5.2.13.3  Modelling Combined Ratio Data 297
5.2.14  Performance of Cholamandalam in Fire Insurance Sector 299
  5.2.14.1  Modelling Premium Income Data 299
  5.2.14.2  Modelling Incurred Claims Data 300
  5.2.14.3  Modelling Combined Ratio Data 302
5.2.15  Performance of HDFC in Fire Insurance Sector 303
  5.2.15.1  Modelling Premium Income Data 303
  5.2.15.2  Modelling Incurred Claims Data 304
  5.2.15.3  Modelling Combined Ratio Data 306
5.3  Resume 307

6  Study on Underwriting Cycle Pattern in Marine Insurance 309
  6.1  Introduction 309
    6.1.1  A Detailed Delineation on Perspective 312
6.2 Results and Discussion

6.2.1 Combined Performance of Public and Private Marine Insurers

6.2.1.1 Modelling Premium Income Data
6.2.1.2 Modelling Incurred Claims Data
6.2.1.3 Modelling Combined Ratio Data

6.2.2 Performance of Public Marine Insurers

6.2.2.1 Modelling Premium Income Data
6.2.2.2 Modelling Incurred Claims Data
6.2.2.3 Modelling Combined Ratio Data

6.2.3 Performance of New India Assurance

6.2.3.1 Modelling Premium Income Data
6.2.3.2 Modelling Incurred Claims Data
6.2.3.3 Modelling Combined Ratio Data

6.2.4 Performance of National Insurance Company

6.2.4.1 Modelling Premium Income Data
6.2.4.2 Modelling Incurred Claims Data
6.2.4.3 Modelling Combined Ratio Data

6.2.5 Performance of Oriental Insurance Company

6.2.5.1 Modelling Premium Income Data
6.2.5.2 Modelling Incurred Claims Data
6.2.5.3 Modelling Combined Ratio Data

6.2.6 Performance of United India Insurance Company

6.2.6.1 Modelling Premium Income Data
6.2.6.2 Modelling Incurred Claims Data
6.2.6.3 Modelling Combined Ratio Data

6.2.7 Performance of the Private Marine Insurers

6.2.7.1 Modelling Premium Income Data
6.2.7.2 Modelling Incurred Claims Data
6.2.7.3 Modelling Combined Ratio Data

6.2.8 Performance of ICICI in Marine Insurance Sector

6.2.8.1 Modelling Premium Income Data
6.2.8.2 Modelling Incurred Claims Data
6.2.8.3 Modelling Combined Ratio Data

6.2.9 Performance of Royal Sundaram in Marine Insurance Sector

6.2.9.1 Modelling Premium Income Data
6.2.9.2 Modelling Incurred Claims Data
6.2.9.3 Modelling Combined Ratio Data

6.2.10 Performance of Reliance Non-Life Insurance in Marine Insurance Sector

6.2.10.1 Modelling Premium Income Data
6.2.10.2 Modelling Incurred Claims Data
6.2.10.3 Modelling Combined Ratio Data

6.2.11 Performance of IFFCO-Tokyo in Marine Insurance Sector

6.2.11.1 Modelling Premium Income Data
6.2.11.2 Modelling Incurred Claims Data
6.2.11.3 Modelling Combined Ratio Data

6.2.12 Performance of TATA-AIG in Marine Insurance Sector

7 Study on Underwriting Cycle Pattern in Miscellaneous Insurance 376
  7.1 Introduction 376
  7.1.1 A Detailed Delineation on Perspective 381
  7.2 Results and Discussion 382
    7.2.1 Combined Performance of Public and Private Miscellaneous Insurers 382
      7.2.1.1 Modelling Premium Income Data 382
      7.2.1.2 Modelling Incurred Claims Data 384
      7.2.1.3 Modelling Combined Ratio Data 385
    7.2.2 Performance of Public Miscellaneous Insurers 387
      7.2.2.1 Modelling Premium Income Data 387
      7.2.2.2 Modelling Incurred Claims Data 388
      7.2.2.3 Modelling Combined Ratio Data 390
    7.2.3 Performance of New India Assurance 391
      7.2.3.1 Modelling Premium Income Data 391
      7.2.3.2 Modelling Incurred Claims Data 392
      7.2.3.3 Modelling Combined Ratio Data 394
    7.2.4 Performance of National Insurance Company 395
      7.2.4.1 Modelling Premium Income Data 395
      7.2.4.2 Modelling Incurred Claims Data 396
      7.2.4.3 Modelling Combined Ratio Data 397
    7.2.5 Performance of Oriental Insurance Company 399
      7.2.5.1 Modelling Premium Income Data 399
      7.2.5.2 Modelling Incurred Claims Data 400
      7.2.5.3 Modelling Combined Ratio Data 402
    7.2.6 Performance of United India Insurance Company 403
      7.2.6.1 Modelling Premium Income Data 403
      7.2.6.2 Modelling Incurred Claims Data 404
      7.2.6.3 Modelling Combined Ratio Data 405
    7.2.7 Performance of the Private Miscellaneous Insurers 407
7.2.7.1 Modelling Premium Income Data 407
7.2.7.2 Modelling Incurred Claims Data 408
7.2.7.3 Modelling Combined Ratio Data 409
7.2.8 Performance of ICICI in Miscellaneous Insurance Sector 410
  7.2.8.1 Modelling Premium Income Data 410
  7.2.8.2 Modelling Incurred Claims Data 412
  7.2.8.3 Modelling Combined Ratio Data 413
7.2.9 Performance of Royal Sundaram in Miscellaneous Insurance Sector 414
  7.2.9.1 Modelling Premium Income Data 414
  7.2.9.2 Modelling Incurred Claims Data 415
  7.2.9.3 Modelling Combined Ratio Data 417
7.2.10 Performance of Reliance Non-Life Insurance in Miscellaneous Insurance Sector 418
  7.2.10.1 Modelling Premium Income Data 418
  7.2.10.2 Modelling Incurred Claims Data 419
  7.2.10.3 Modelling Combined Ratio Data 421
7.2.11 Performance of IFFCO-Tokyo in Miscellaneous Insurance Sector 422
  7.2.11.1 Modelling Premium Income Data 422
  7.2.11.2 Modelling Incurred Claims Data 423
  7.2.11.3 Modelling Combined Ratio Data 425
7.2.12 Performance of TATA in Miscellaneous Insurance Sector 426
  7.2.12.1 Modelling Premium Income Data 426
  7.2.12.2 Modelling Incurred Claims Data 427
  7.2.12.3 Modelling Combined Ratio Data 429
7.2.13 Performance of BAJAJ in Miscellaneous Insurance Sector 430
  7.2.13.1 Modelling Premium Income Data 430
  7.2.13.2 Modelling Incurred Claims Data 432
  7.2.13.3 Modelling Combined Ratio Data 433
7.2.14 Performance of Cholamandalam in Miscellaneous Insurance Sector 434
  7.2.14.1 Modelling Premium Income Data 434
  7.2.14.2 Modelling Incurred Claims Data 435
  7.2.14.3 Modelling Combined Ratio Data 437
7.2.15 Performance of HDFC in Miscellaneous Insurance Sector 438
  7.2.15.1 Modelling Premium Income Data 438
  7.2.15.2 Modelling Incurred Claims Data 440
  7.2.15.3 Modelling Combined Ratio Data 441
7.3 Resume 442

8 Summary, Conclusion and Recommendation 444
  8.1 Summary of Findings 444
  8.2 Conclusion 478
  8.3 Recommendation 482

9 Limitations and Future Scope of Research 483
  9.1 Limitations of the Study 483
9.2 Scope of Further Research 483
