Acknowledgements

It is a pleasure to thank the many people who made this thesis possible.

It is difficult to overstate my gratitude to my Ph.D. supervisors, Dr. Amlan Chakrabarti and Prof. (Dr.) Paramartha Dutta. With their enthusiasm, their inspiration, and their great efforts to explain things clearly and simply, they helped to make my research work fun for me. Throughout my thesis-writing period, they provided encouragement, sound advice, good company, and lots of good ideas. No words can express my gratitude to them. I would have been lost without them.

I would like to thank the many people who have taught me Computer Science: my undergraduate teachers at Kalyani Government Engineering College, and my graduate teachers in Sikkim Manipal Institute of Technology.

I feel proud to acknowledge my mother for her throughout support and motivation in my career. I would like to thank my wife for her unconditional love, patience and cooperation.

I am indebted to my colleagues for providing a stimulating and fun environment in which to learn and grow. Last, but by no means least, I thank my friends for their support and encouragement throughout.

Jyoti Prakash Singh
