Chapter 7: Findings and Analysis of Data on Non Adolescent Pregnant Women who are Category A

7.1: Socio Economic Profile of Respondents
7.1.1: Religion
7.1.2: Age of the Respondents
7.1.3: Marital Age and Pregnancy
7.1.4: Educational Level
7.1.5: Occupation
7.2: Mental Health Status
7.3: Findings regarding their Health Status
7.4: Analysis
7.5: Detailed Analysis
A. Correlation of Primary Rights Neglected to Input Variables
A1. Description of Input Variables
A2. Analysis of the Figures
A3. Need for Correlation and Partition Analysis
A4. Explanation
A5. Discussion
B. Correlation of Nutritional Deficiency to Input Variables
B1. Description of Input Variables
B2. Analysis of the Figures
B3. Explanation
B4. Discussion
B5. Explanation
B6. Discussion
B7. Explanation
B8. Discussion
Chapter 8: Findings and Analysis of Data on Pregnant and Non-pregnant Adolescent Women (Category B):

8.1: Socio economic profile
   8.1.1. Age
   8.1.2. Marital Age
   8.1.3. Age of Unmarried Adolescents
   8.1.4. Religion
   8.1.5. Educational Status
   8.1.6. Occupation
8.2. Mental Health Status
8.3. Findings regarding their health status
8.4. Analysis
8.5: Analysis using Software

A. Correlation of primary Rights Neglected to Input Variables
   A1. Description of the Input Variables
   A2. Analysis of the Figures
   A3. Explanation
   A4. Discussion
   A5. Explanation
   A6. Discussion
   A7. Explanation
   A8. Discussion

B: Correlation of Health Awareness and Perception to Input Variables
   B1. Description of Input Variables
   B2. Analysis Using Figures
   B3. Explanation
   B4. Discussion
   B5. Explanation
   B6. Discussion
Chapter 9: Findings and Analysis of Data on Respondents who are Adults (not adolescents) and Admitted for Causes other than Pregnancy (Category C)

9.1: Socio Economic Profile

9.1.1: Age of Respondents

9.1.2: Religion

9.1.3: Marital Age

9.1.4: Age at First Child Birth

9.1.5: Educational Status

9.1.6: Occupation

9.2: Mental Health

9.3: Findings regarding their Health Status

9.4: Analysis

9.5: Analysis using Software

A. Correlation of “Primary Rights Neglected” to input variables

A1. Description of Input variables

A2. Analysis of the Figures:

A3. Explanation

A4. Discussion

A5. Explanation

A6. Discussion

B. Correlation of “Health Awareness and Perception” to input variables

B1. Description of Input Variables

B2. Analysis of Figures:

B3. Explanation

B4. Discussion

B5. Explanation

B6. Discussion

C. Conclusion
Chapter 10: Case Studies

A. Pregnant Women who are Non Adolescents (Category A) 138
   A1. Spontaneous Abortion 138-139
   A2. Spontaneous Abortion 140-141
   A3. Breech birth 142-143
   A4. Decision making 143-145
   A5. Earlier miscarriage 145-146
   A6. Stillbirth and wrong insertion of IUD 146-148
   A7. Intrauterine hypoxia and fetal injury 148-149
   A8. High blood pressure 149-150
   A9. Polyhydraminos and chronic diabetes 151-153
   A10. Perinatal Asphyxia, Stillbirth and Eclampsia 153-154
   A11. Spontaneous abortion and tumour 155-156
   A12. Acute eczematous 156-158
   A13. Decision making 158-159
   A14. Spontaneous abortion 152-154
   A15. Normal delivery, positive case study 154-155
   A16. Pregnant with genital sore and infections 161-162
   A17. Placenta Accreta 162-163
   A18. Primary Rights Violated (Epilepsy plus birth defect) 165-167
   A19. Wrong insertion of intrauterine device (IUD) 167-168
   A20. Intrauterine Hypoxia (lack of oxygen) 168-169
   A21. Tumour in abdomen, caesarean delivery 170-171
   A22. Polyhydraminos and low birth weight of baby 171-173
   A23. Ambiguous genitalia and pulmonary atresia 173-175
   A24. Pregnant with tumour (trophoblastic disease) 175-177
   A25. Mental Health 177-178
   A26. Foetus died, patients and family members did not remove the foetus 178-179
   A27. Lack of awareness but MDG targets satisfied 179-180
   A28. Pregnancy with fungal infection 181-182
   A29. Thalassemia and mental health 182-183
   A30. Perinatal Asphyxia 184-185
   A31. Gestational trophoblastic disease 186-187
A32. Right to health and MDG protected
A33. Perinatal asphyxia
A.34. Foeticide
A35. Right to health and MDG targets ensured
A36. Unwanted pregnancy and lack of spacing
A37. Mental health and hemorrhage
A38. Cardiac Problem of the baby and severe anemia
A39. Low spacing
A40. Uterus burst and spontaneous abortion
A41. Positive case study
A42. Lack of rest due to household responsibilities
A43. Lack of spacing between two children
A44. Positive case study
A.45. Lack of Nutrition
A46. Anaemia and Lack of nutrition
A47. Decision making problem
A48. Low spacing between two children
A49. Pedel edema (swelling between knees and feet)
A50. Ovarian cyst
A51. Mental health (absconded from hospital)
A52. Postpartum Haemorrhage
A53. Decision making
A54. Respiratory problem
A55. Thyroid problems
A56. Congenital infections
A57. Positive case study
A58. Congenital anomaly in central nervous system
A59. Menstrual complications
A60. Premature rupture of membranes
A61. Eclampsia
A62. Diabetic and birth defects
A63. Pre eclampsia
A64. Son preference
A65. Liquor less than adequate, one baby died
A66. Lactational Amenorhea 244-246
A67. Unsafe abortion 246-248
A68. Amenorrhea and thyroid problems 248-249
A69. Polyhydraminos and birth defects 250-252
A70. Positive case study 252-253
A71. Meconium aspiration 253-255

B.I. Case Studies of Unmarried Adolescents (Category B) 255
B1. Menstrual problems 255-257
B2. Unwanted pregnancy 258-259
B3. Genital herpes 259-261
B4. Sexual violence 261-263
B5. Bacterial vaginosis leading Chlamydia 263-265
B6. Unwanted pregnancy 265-266
B7. Hepatitis B and minor genital infections 267-268

B.II. Case Studies of Married Adolescents (Category B) 268
B8. Respiratory problems of baby 268-270
B9. Polyhydraminos 270-272
B10. Baby’s wrong position 273-274
B11. Fungal infection 274-275
B12. Haemorrhage 276-277
B13. Perinatal Asphyxia 277-278

C. Case Studies of Adult Women for Gynecological Problems other than Pregnancy (Category C)
C1. Mental health problem and polyps in Uterus 279-280
C2. Uterine Prolapse 280-282
C3. Uterine Fibroid 282-283
C4. Menorrhagia 284-285
C5. Menorrhagia and ovarian cyst 285-286
C6. Uterine polyps 287-288
C7. Hormonal imbalance post menopause 288-289
C8. Endometriosis 289-290
C9. Cervical cancer 291-292
C10. Uterine fibroids and infertility 293-285
C11. Uterine fibroids \hspace{1cm} 295-297
C12. Hysterectomy and enlarged ovary \hspace{1cm} 297-298
C13. Uterine fibroids and hysterectomy \hspace{1cm} 299-300
C14. Uterine fibroids and cardiac problem \hspace{1cm} 300-302
C15. Mental abuse and benign tumour \hspace{1cm} 302--304
C16. Genital herpes \hspace{1cm} 304-306
C17. Adenomyosis \hspace{1cm} 306-307
C18. Genital cancer \hspace{1cm} 308-309
C19. Uterine mass non-malignant \hspace{1cm} 309-310
C20. Uterine fibroids \hspace{1cm} 311-313
Conclusion: \hspace{1cm} 313-314

Chapter 11: Epidemiological Description of the Total Sample \hspace{1cm} 315-317

Chapter 12 : Recommendations for Policy Making \hspace{1cm} 318-322

Bibliography \hspace{1cm} 323-345

Appendix \hspace{1cm} 346-362
