ACKNOWLEDGEMENT

I am greatly indebted to Dr. A. Sukumaran Nair, Vice-Chancellor, Mahatma Gandhi University, Kottayam, for his erudite, sincere, resourceful and invaluable guidance. But during the course of this work he had to shoulder time consuming administrative jobs such as Commissioner of Educational Research and Training, Pro-Vice-Chancellor and finally as Vice-Chancellor. In the midst of all the pressures of administrative work, he found time to guide this work and even suggest guiding hypothesis and specific research questions which gave a point to the study.

I also record my deep sense of gratitude to Dr. N. Vedamani Manuel both in his capacity as the Professor and Head of the Department of Education, University of Kerala, when this research commenced and in his capacity as a consultant in various aspects of the history of education whenever the need arose. Thanks are also due to the subsequent Heads of Department of Education, Professor Pushpita John and Prof. Vasantha Ramkumar for providing the facilities for this research.

I also thank the Deputy Librarian-in-charge and the other staff of the Kerala University Library for providing the facilities during the concluding part of the study. The curators of the State Archives at Trivandrum and Calicut and the State Legislature Library were good enough to provide facilities to pursue the primary data.

I sincerely thank the University Grants Commission for having devised the Faculty Improvement Programme under which I was able to devote my undivided attention for this task for three years. Thanks are also due to the University of Kerala and the Department of Higher Education, Government of Kerala, for having deputed me to pursue my research in this area.

I thank Mrs. Ammini for typing this thesis neatly in a short period.

Thiruvananthapuram, 8th December, 1993.
G. RAVINDRAN
