ACKNOWLEDGEMENT

I express my deep sense of gratitude and heartfelt tribute to Late Professor U.C. Goswami, Department of Zoology, Gauhati University for his devotion in supervision and guidance, constant encouragement, constructive criticism and suggestions at various stages. But due to his unfortunate demise my rest of the Ph.D. work has been carried out under Professor Amalesh Dutta. So I express my heartfelt thanks to Professor Amalesh Dutta for his guidance and suggestions at various stages which has enabled to me complete the thesis within time framed. Without his help and co-operation it would not have been possible to complete the thesis.

I am also grateful to Dr. J. Kalita, Head of the Department of Zoology for her help in using laboratory equipment and all the laboratory facilities. I sincerely thank the respected faculty members of the Department of Zoology, G.U.

I am thankful to fisherman who helped in catching the specimen during the study period.

I would like to thank Dr Suman hazarika of International hospital for the MRI photography of Sisor fish sample.

Lastly, I wish to acknowledge all the members of my family, relatives, friends, juniors of my department and well wishers for their valuable help and encouragement during the long tenure of this thesis work.
