

MAPS AND DIAGRAMS

(Numbering of Figures is by Chapter and Section)

- Fig. 1.1 Location map of the Sali river basin, Bankura 2
- 2.1 Geological map of the Sali Basin 11
- 2.2 Morpho- and Litho-stratigraphic units of the quaternary surfaces 16
- 3.1 Temperature, Humidity and Wind speed profiles : Gangajalghati and Indus 32
- 3.2 Ombothermic diagrams : Gangajalghati and Indus 38
- 3.3 Normal and deficit rainfalls in the drought year of 1921 over the Sali Basin 41
- 3.4 Annual rainfall departure curves: Gangajalghati and Indus 42
- 3.5 Average and weekly rainfall curves : Bankura 44
- 3.6 Deficit rainfalls in the drought year of 1935 and 1944 over the Sali Basin 47
- 3.7 Climatic water balance : Gangajalghati, Sonamukhi and Indus stations of the Sali Basin 55
- 4.1 Typical soil profiles of the Sali Basin 64
- 4.2 Types of soils in the Sali Basin 65
- 4.3 Surface soil reaction in the Sali Basin 71
- 4.4 Soil fertility status of the Sali Basin 74
- 5.1 Sali river and its major tributaries 88
- 5.2 Typical drainage patterns of the Sali Basin 94
- 5.3 Ordering of streams in the Sali Basin 97
- 5.4 Channel patterns of the Sali river 100
- 5.5 Drainage density map of the Sali Basin 102
- 5.6 Relative relief map of the Sali Basin 105
- 5.7 Average slope map of the Sali Basin 109
- 5.8 Roughness index map of the Sali Basin 110
- 5.9 Long profile along the Sali river 111
- 5.10 Percentage hypsometric curve of the Basin 114
- 5.11 Broad geomorphological map of the Sali Basin 115
- 5.12 Geomorphic surfaces of the Sali Basin 122

- 5.13 A rough sketch of the Kora - a residual hill in the relict topography at Gangajalghati 123
- 5.14 A sketch of the rugged terrain in Sonamukhi rolling plain exhibiting gullied topography 125
- 5.15 A field sketch of ravination at Beliatore 126
- 6.1 Depth to groundwater level map of the Sali Basin 138
- 6.2 Water table contour map of the part of the Sali Basin and its surrounding areas 140
- 6.3 Source of irrigation in the Sali Basin 146
- 6.4 Groundwater irrigation potential map of the Sali Basin 158
- 7.1 Broad land use map of the Sali Basin 167
- 7.2 Geomorphic surface-wise variation of land under forests in the Basin 174
- 7.3 Geomorphic surface-wise variation of land under paddy (main crop) in the Basin 185
- 7.4A Settlements and blocked - *Jhor* tanks at higher slopes in Gangajalghati 191
- 7.4B Settlements and excavated tanks at lower slopes in Sonamukhi 191
- 7.5A Land use map of Ramchandrapur mouza developed on *tora* land in the Basin 193
- 7.5B Land use map of Konra mouza developed on *baid* land in the Basin 193
- 7.6 Channel morphology of the Sali and crop cultivation on terraces of both bank areas near Sonamukhi 200
- 7.7A Land use map of Maheshpur mouza developed on *kanali* land in the Basin 203
- 7.7B Land use map of Bijpur mouza developed on *soal* land in the Basin 203
- 7.8 Land capability classification map of the Sali Basin 209
- 8.1 Histograms showing geomorphic surface-wise mean values of the selected characters 224
