

## LIST OF TABLES

(Numbering of Tables is by Chapter and Section)

- 2.1 Morpho-Stratigraphical Units of the Sali Basin 17
- 2.2 Quaternary Geological Formations and Land use pattern of the Sali Basin 25
- 3.1 Temperature and wind speed records of the Sali Basin (1951-90) 31
- 3.2 Rainfall, Number of rainy days and Humidity records of the Sali Basin (1951-90) 33
- 3.3 Seasonal Variability of Rainfall : Average of 40 years (1951-90) in the Sali Basin 39
- 3.4 Average and Actual Weekly Rainfall : Bankura 43
- 3.5 Normal and deficit rainfall of the Sali Basin and its surrounding areas in different drought years 46
- 3.6 Normal Monthly and Annual Potential Evapotranspiration Values : Puruliya and Barddhaman Stations 50
- 3.7 Climatic Water Balance (1961-90) : Gangajalghati Station 52
- 3.8 Climatic Water Balance (1961-90) : Sonamukhi Station 53
- 3.9 Climatic Water Balance (1961-90) : Indus Station 54
- 3.10 Moisture indices (1961-90) : Gangajalghati, Sonamukhi and Indus Stations 51
- 3.11 Rainfall in relation to *Aman* paddy cultivation in the Sali Basin (1961-90) 58
- 4.1 Types of soils within the Sali Basin 63
- 4.2 Texture of surface soils in the Sali Basin 69
- 4.3 Physical and chemical properties of individual soil type at different depths 69A
- 4.4 Fertility status of surface soils in the Sali Basin 73
- 4.5 Correlation between soil types and crop cultivation, and productivity rating in the Sali Basin 75A
- 5.1 Linear morphometric properties of the Sali Basin 96
- 5.2 Relative Relief categories and their areal coverage in the Sali Basin 106
- 5.3 Broad Geomorphological Divisions of the Sali Basin 120

6.1	Mean Monthly Rainfall (1951-90) in the Sali Basin	134
6.2	Lithological log of bore-holes in the Sali Basin	137
6.3	Chemical Analysis of Groundwater in the Sali Basin	144
6.4	Distribution of Irrigated Areas in the Sali Basin (1989-90)	147
6.5	Canal irrigation in the Sali Basin	151
6.6	Seasonal Distribution of Rainfall in the Sali Basin	159
7.1	Broad Land use Pattern of the Sali Basin : Average of 5 years (1985-90)	169
7.2	Change of Net Area Sown in the Sali Basin from the year 1944-45 to 1989-90	178
7.3	Index of crop diversification of the different farmlands in the Sali Basin	186
7.4	Soil and Land use Pattern of the different farmlands in the Sali Basin	195
7.5	Land capability classification of the Sali Basin	207
8.1	Summary measures of different characters for each land surface in the Sali Basin	219
8.2	The values of Z-scores in pairs of the surfaces in the Sali Basin	221
8.3	Correlation Matrix of Geomorphic Surfaces	226
