ACKNOWLEDGEMENT

I express my deepest sense of gratitude and appreciation to Dr. Chandicharan Deb, Professor of the Department of Physiology, Calcutta University, under whose guidance, this work was carried out and it is only due to his helpful criticism and suggestions throughout the period that this thesis could ultimately be put into the present form.

I gratefully acknowledge to Dr. (Mrs.) Pratima Chatterjee; Head of the Department of Physiology, Calcutta University, for her helpful suggestions regarding my research work.

Dr. N.M. Biswas; Professor of Physiology; Calcutta University is also gratefully acknowledged for his valuable suggestions in the field of reproductive biology.

I am very much obliged to my respected teachers of the Department of Physiology, Calcutta University for their kind co-operation and valuable suggestions.

My sincere gratitude is extended to Dr. (Mrs.) A. Pakrashi, Asst. Director, Indian Institute of Chemical Biology (IICB), Jadavpur for providing me laboratory facilities regarding radioimmunoassay (RIA). I must appreciate the assistance of the scientists Dr. Sd.N. kabir, Dr. A. Paul; Dr. (Mrs.) S. Ghosh and other fellows of Reproductive Biology Research Laboratory, IICB, Jadavpur, Calcutta.
I must remain ever grateful to my senior workers, Dr. (Mrs.) A. Roy and Dr. S. Chatterjee for their sincere help, selfless co-operation and scientific advices. With them, Mr. J.K. Ghosh, Lecturer in Physiology, City College, Calcutta, is also highly appreciated for his kind co-operation and encouragement.

My another senior worker Dr. M. Sarkar, is also highly acknowledged for his untiring effort for my microphotography. Here, R. Bhattacharya, Mr. G.D. Ghose, Sk. R. Islam and Mr. R. Dey are also obliged for their heartily co-operation.

I am greatly appreciated to Mr. A. Chowdhury, Lecturer in Physiology, City College, Mr. P. Ghosh, Mrs. S. Deb, NET scholar of our department and GATE scholar Mr. R. Sengupta, for their valuable suggestions and help.

I am also indebted to my closed friend Mr. M. Mondal, research scholar of IICB, for his scientific co-operation regarding some new techniques and ideas in the field of Reproductive Biology.

I specially like to extend my exclusive indebtedness to Dr. T.K. Ghosh, Lecturer in Physiology, Surendranath College, Calcutta, for his kin interest and co-operation regarding my statistical calculations in the thesis.

M/S. Cynamid Chemical Co., Bombay, India, is also highly appreciated for their kind co-operation in gifting me the pure technical grade thimet (Phorate).
I am offering my thanks to all my friends and colleagues of my institution, Sahid Jatindas Vidyamandir, Belghoria, for their encouragement and help.

Mr. Niladri Ray is also thanked for his finely computerised processing of my thesis.

I must express my heartfelt gratitude to my respected father-in-law, Mr. S.P. Manna, Principal, Sabang Sajanikanta Mahavidyalaya, Midnapore, for his continuous encouragement and help regarding manuscript preparation.

I am also indebted to my mother, brothers, sister and master Tapas and Tanu for their keen interest and encouragement in my work.

Lastly, I am to highlight my gratitude for ever to my wife Mrs. Bandana, M.Sc, B.Ed., for her continuous encouragement and help during the tenure of the present thesis and to Master Tirthankar, my son, for his silent encouraging.

Nirmal Kumar Pradhan
