

CONTENTS

CHAPTER NO.	TITLE	PAGE NOS.
	Acknowledgements	
	List of Abbreviations	
Chapter I	Introduction and Review of Literature	1-52
Chapter II	General Materials and Methods	53-73
Chapter III	A rapid and sensitive method to quantify <i>Leishmania</i> infection in macrophages by episomal expression of luciferase reporter gene	74-84
Chapter IV	Role of protein kinase C in <i>Leishmania donovani</i> lipophosphoglycan mediated signal transduction in macrophage	85-93
Chapter V	<i>Leishmania</i> Lipophosphoglycan Activates the Transcription Factor Activating Protein 1 in J774A.1 Macrophages through the Extracellular Signal-Related Kinase (ERK) and p38 Mitogen-Activated Protein Kinase	94-108
Chapter VI	<i>Leishmania donovani</i> Activates Nuclear Transcription Factor- κ B in Macrophages Through Reactive Oxygen intermediates	109-123
Chapter VII	<i>Leishmania donovani</i> Induces Interferon Regulatory Factor (IRF) in Murine Macrophages: A Host Defense Response	124-135
Chapter VIII	Regulation of nitric oxide production by <i>Leishmania</i> lipophosphoglycan (LPG) in murine macrophages ...	136-147
Chapter IX	General Discussion	148-162
Chapter X	Conclusions	163-170
Chapter XI	Bibliography	171-224
	List of Publications
