Acknowledgement

I wish to express my deep and sincere gratitude to Dr. P.C. Kundu, M.Sc., Ph.D., Reader, Department of Pure Chemistry, University of Calcutta for his valuable guidance and constant advice during the entire course of the present research.

I am grateful to Sri S. Maikan, R.S.I.C., Bose Institute for his help in recording electronic spectral data. I am thankful to Dr. T.N. Chakraborty, M.Sc., Ph.D., for his assistance in elemental analyses. I am under obligation to Sri A. Acharya, Sri J. Ghosh and Sri P. Pal for recording some IR spectral data. I express my earnest thanks to Dr. N. Roychowdhuri, M.Sc., Ph.D., Reader in Chemistry and Dr. S. Mitra, M.Sc., Ph.D., I.A.C.S. for recording the derivatographs of some compounds.

I express my heartiest thanks to my senior colleagues especially Dr. S. Bhattacherjya, M.Sc., Ph.D., and Dr. A.K. Bera, M.Sc., Ph.D., for their encouragement and ungrudging assistance in my research work. I also take this opportunity to acknowledge the help of my colleagues in day-to-day experimental work especially Sri K.K. Majumder and Sri P.K. Datta. I am ever grateful to all of my friends and well-wishers who inspired me directly or indirectly towards the completion of this thesis.
I am grateful to Dr. B.N. Mukherjee, Principal, B.B. College, Asansol for granting me four years leave for my research work.

Finally, I wish to convey my deep and sincere thanks to U.G.C. (New Delhi) for awarding me a teacher fellowship under F.I.P.
