Acknowledgements

I would not be able to reach this point of completing the thesis without the help and support of a large number of people and Institutions to whom I shall be ever thankful.

I take this opportunity to express my deep sense of gratitude and indebtedness to my supervisor Dr. Sagartirtha Sarkar and associate supervisor Professor Asish Kumar Duttagupta for their invaluable suggestions, endless encouragement, inspiring attitude, and encouraging guidance and co-operation during the entire tenure of this work. With deep sense of gratitude I thank Dr. Sarkar for giving me a lifetime opportunity to work in the lab and avail all the research facilities. I have benefited from his scholarly and perceptive criticism. I would like to extend my regards to Prof. Duttagupta for his personal care and faith in me that has been the great source of inspiration and patience during the course of entire research tenure. His meticulous and perfectionist approach toward work is worth emulating. I am immensely grateful to him for creating a kind of environment to do some satisfying research work. It's my privilege to convey sincere regards to Mrs. Sunanda Duttagupta for her motherly affection, concern and support. Her parental love would always be remembered. Here I must have to mention one more name with due respect and the name is Mamta Chawla Sarkar, from whom I have learnt so many things like punctuality, precision, boldness, self respect and above all hard work throughout my work tenure.

I would like to extend my regards to Prof. Samir Banerjee, Department of Zoology, University of Calcutta for his valuable suggestions and constant co-operation in extending various facilities in the Department to continue my research work successfully.

I am thankful to Prof. Sumit Homechandhuri, Head of the Department, Department of Zoology, University of Calcutta for his valuable suggestion. I owe a lot and I am grateful to our former heads, Prof. Rabindranath Chatterjee, Prof. Subrata Chakraborty and Prof. Sajal Ray, for their constant encouragement toward the progress of works. I am also thankful to all the Faculties of the Department of Zoology for their cooperation for
creating strong research acumen. I would like to mention that I am eternally grateful to all my teachers who taught me years ago and set me on this path.

My Sincere thanks go to Mr. Tapan Saha, Prof. Ghosh, Mousumi Di and Suvayan of 'Institute of Environmental Studies and Wetland Management', Kolkata for providing me with the facilities of their Atomic Absorption Unit and valuable suggestions whenever required.

I must have to mention the cooperative attitude of all the people of Fisherman Societies of three study sites of my work and Mr. Giridhari Jana for the continuous supply of specimens as and when required throughout the study period.

I wish to record my special thanks to Dr. Gobinda Chandra Sadhukhan, Associate Professor and Head, Department of Zoology, Vidyasagar College, Kolkata, for selflessly fostering my research.

I acknowledge the humble attitude and endless encouragement of Dr. Sheela Roy, Dr. Nirmal Debnath and Ms. Indrani Sarkar (Biswa) of the, Department of Zoology, Vidyasagar College, Kolkata regarding the submission of my thesis.

I would like to mention the immense help and co-operation of my senior as well as colleague Dr. Manikankana Bandopadhyay throughout the tenure of my research work, Without her help this work could not be established.

I owe my heartfelt gratitude to my senior colleague, Dr. Shilpi Acharya, for the active help, advice, and untiring meticulous suggestions at every stage of my work.

I feel I am very lucky that I have got two lab mates like Arunachal and Saiful. I will remember their contribution and friendship till the last breath of my life.

I had a nice time with my friends and juniors in the laboratory as well as in the Department for kind co-operation. So here is a special thank for Bhaskar, Swati, Taraswi, Kanchan Da, Arkadeep, Santanu, Shaon, Kaberi, Anupam, Rajarshi Da, Binu Di, Krishna Di, Niloy, Indraneel, Sudipta, Samrat Da, Mukul Di, Bireswar Da, Mousumi Di, Sanjoy,
Indranil, Barnali, Moumita, Niladri, Prantik, Pragyaparamita, Rajmita, Debjani, Mitali Di and many other people for their direct or indirect help in conducting the protocols.

I have no words to express my gratitude towards my parents, who with all their inspiration and support have helped me to complete this work successfully. I warmly extend my thanks to my parent in laws for their encouragement, support and cooperative attitude.

My heartfelt thanks to all the family members for their unfailing and unconditional emotional support throughout the course of my research tenure.

The inspiration of my life and higher study was always my chotomama, Mr. Biswarup Ganguli. I would like to convey my warm regards to him. I would also like to mention the help and moral support extended by sister Mrs. Bishakha Mukherjee.

How could I forget to thank Dr. Urmia Chatterji, Dr. Nabaneeta Saha and Mr. Souryadeep Mukherjee who are really close to my heart and for a great company especially in canteen and late hour of my works in the lab with lots of fun along with helpful suggestions.

A few words are really insufficient to express my heartfelt gratitude to my wife, Minakshi Mazumdar (Karmakar) without whose cooperation and affection in every step of my research career, it would not have been possible for me to reach the stage where I am.

I have to mention a few names here whose continuous indirect help has been instrumental in the shaping of my work; they are Mriganka, Koustuv, Sanjoy, Sourav, Saikat, Manojit, Sudip, Soumosish, Kankana, Shruti, Papiya, Arnab.

There are always some people remains behind the curtain of every play and the same is here. How can I forget them? I apologize to them for not making special mention, but I assure they will always be close to my heart.

DEBASHISH KARMAKAR
