Summery                                                                 V
Abbreviations                                                            VI
List of Figures                                                          IX
List of Tables                                                           XII
General Introduction                                                     1
Chapter I: Studies of heavy metal concentrations in water bodies and
resident organisms in and around Kolkata metropolis

1.1 Introduction                                                        7
1.2 Materials and Methods                                               12
  1.2.1 Collection of water and live organism sample                     12
    1.2.1.1 Water sample collection                                       12
    1.2.1.2 Collection of living organisms inhabiting in these three areas 12
  1.2.2 Chemical treatment of the samples for atomic absorption
      spectrophotometry                                                   13
    1.2.2.1 Processing of water samples for AAS                          13
    1.2.2.2 Acid digestion of the tissues of *Labeo bata*                 14
    1.2.2.3 Acid digestion of the tissue of *Lemna minor*                 14
    1.2.2.4 Atomic Absorption Spectrophotometry                           14
  1.2.3 Preparation of samples for Gas Chromatography                    15
    1.2.3.1 Preparation of water samples                                 15
    1.2.3.2 Preparation of tissue samples of *Labeo bata*                15
    1.2.3.3 Preparation of tissue samples of *Lemna minor*               16
    1.2.3.4 Gas Chromatography                                            16
1.3 Results                                                             17
1.3.1 Results of the concentrations of heavy metals in aquatic habitats and of the resident organisms

1.3.2 AAS analysis of water, *Labeo bata* and *Lemna minor* sample

1.3.2.1 Concentration of the three heavy metals in different water bodies surrounding Kolkata metropolis

1.4 Discussion

Chapter II: Genetic polymorphism in resident organisms at protein level due to heavy metal stress

2.2 Materials and methods

2.2.1 Stock solutions

2.2.2 Preparation of Polyacrylamide non-denaturing gel

2.2.2.1 Resolving Gel Preparation

2.2.2.2 Stacking gel preparation

2.2.3 Preparation of samples

2.2.3.1 *Labeo bata*

2.2.3.2 *Lemna minor*

2.2.4 Electrophoresis

2.2.5 Staining Procedure

2.2.5.1 Esterase (Est)

2.2.5.2 Alkaline Phosphatase (AIP)

2.2.5.3 Glucose – 6 Phosphate Dehydrogenase (G6PD)

2.2.5.4 Lactate Dehydrogenase (LDH)

2.2.5.5 Malate Dehydrogenase (MDH)

2.3 Results

2.3.1 Esterase polymorphism in the tissues of the liver of *Labeo bata*

2.3.2 G – 6 P D polymorphism in the tissues of liver and kidney of *Labeo bata*
2.3.3 LDH polymorphism in the tissues of liver and kidney of *Labeo bata* 37
2.3.4 Esterase polymorphism in the leaf tissue of *Lemna minor* 37
2.3.5 Alkaline Phosphatase polymorphism in the leaf tissue of *Lemna minor* 38
2.3.6 MDH polymorphism in the tissues of leaf of *Lemna minor* 38
2.4 Discussion 39
2.4.1 Isozyme profile of *Labeo bata* in liver 40
2.4.1.1 Esterase (Liver) 41
2.4.1.2 G-6 P D (Liver) 41
2.4.1.3 LDH (Liver) 42
2.4.2 Isozyme profile of *Labeo bata* in kidney 43
2.4.2.1 Esterase (Kidney) 43
2.4.2.2 G6PD (Kidney) 43
2.4.2.3 LDH (Kidney) 44
2.4.3 Isozyme profile in *Lemna minor* 44
2.4.3.1 Esterase 44
2.4.3.2 Alkaline phosphatase 45
2.4.3.3 Malate dehydrogenase 45

Chapter III: Genetic polymorphism in resident organisms at DNA level due to heavy metal stress

3.1 Introduction 46
3.2 Materials and methods 51
3.2.1 Genomic DNA isolation from *Labeo bata* and *Lemna minor* 51
3.2.1.1 Reagents 51
3.2.1.2 Solutions 51
3.2.1.3 Procedure 1: for isolation of DNA from animal tissues 51
3.2.1.4 Procedure 2: for isolation of DNA from plant tissues 52
3.2.2 Estimation of concentration of DNA 52
3.2.3 RAPD – PCR analysis 52
3.2.3.1 Reaction mix and amplification conditions 52
3.2.3.2 Arbitrary primers used 52
3.2.4 Gel electrophoresis of DNA 53
3.2.4.1 Reagents 53
3.2.4.2 Procedure 53
3.2.5 Scoring of RAPD-PCR 53
3.2.5.1 Statistical Analysis of DNA Fingerprinting (DFP) data 53
3.2.5.2 Computational Package 54
3.3 Results 55
3.4 Discussion 57
General Discussion 59
Bibliography 68
