Acknowledgement

In presenting the thesis, Museum Technology: A Museological Study of Application of Technology in the Museums in India, I express my deep gratitude and regards to Prof Somnath Bhattacharya, former professor of the Department of Museology, University of Calcutta, and supervisor of this thesis.

I am indebted to my parents, who provided me immense moral support and guidance, at a time when I stumbled before the dark, uncertain future, and gave me necessary encouragement to complete the thesis. My regards are due to my Parents-in-law for their blessings and support.

I express my regards to the senior teachers of the Department of Museology, University of Calcutta. I also thank the staff of the Department.

I convey my gratitude to Shri Supreep Chanda, my colleague and husband, for his encouragement, constant support, suggestions and active cooperation.

I must thank Shri Pratik Ghosh, former student of the Department of Museology, University of Calcutta, who took the trouble of scanning the photographs. My special thanks are to Smt. Moumita Paul, UGC-Jr. Research Fellow, and Smt. Lyric Banerjee, Research Assistant, WSRC, Calcutta University for meticulously drawing the sketches.

My sincere thanks are due to the Directors, Curators/Keepers, Officers and Staff of all the museums, conservation laboratories and institutions; I visited, worked and collected data for my research work leading to this dissertation.

At the end, I wish to thank my students, who gave me uninterrupted support and are constant source of encouragement.
