List of tables

3.1. Total population by age, sex and marital status, in sedente and migrant groups 59
3.2. Multiple marriages, in sedente and migrant groups 61
3.3. Number of married women never-pregnant and pregnant-at least-once by age group, in sedente and migrant groups 62
3.4. Live births by age group of married women, in sedente and migrant groups 63
3.5. Number of married women by surviving and total sibship size, in sedente and migrant groups 64
3.6. Live births during each 5-year period to married women living in wedlock, in sedente and migrant groups 66
3.7. Infant mortality, in sedente and migrant groups 67
3.8. Selection intensity, in sedente and migrant groups 68
3.9. Number of married women never—pregnant and pregnant—at least—once by age group, in migrational status groups (Oraon) 72

3.10. Live births by age group of married women, in migrational status groups (Oraon) 73

3.11. Number of married women by surviving and total sibship size, in migrational status groups (Oraon) 74

3.12. Live births during each 5—year period to married women living in wedlock, in migrational status groups (Oraon) 76

3.13. Infant mortality, in migrational status groups (Oraon) 77

3.14. Selection intensity, in migrational status groups (Oraon) 78

3.15. Number of married women, never—pregnant and pregnant—at least—once by age group, in migrational status groups (Tamang) 79

3.16. Live births by age groups of married women, in migrational status groups (Tamang) 81

3.17. Number of married women by surviving and total sibship size, in migrational status groups (Tamang) 82

3.27. Infant mortality, by income group (Oraon and Tamang migrant groups) 95

4.1a. Anthropometric measurements of the sedentes and migrants by age group (male) 97

4.1b. Anthropometric measurements of the sedentes and migrants by age group (female) 100

4.2a. Anthropometric measurements of the migrant Oraons by migrational status and age group (male) 107

4.2b. Anthropometric measurements of the migrant Oraons by migrational status and age group (female) 111

4.3a. Anthropometric measurements of the migrant Tamangs by migrational status and age group (male) 114

4.3b. Anthropometric measurements of the migrant Tamangs by migrational status and age group (female) 118

4.4a. Anthropometric measurements of the migrant Oraons by income group and age group (male) 121

4.4b. Anthropometric measurements of the migrant Oraons by income group and age group (female) 123
4.5a. Anthropometric measurements of the migrant Tamangs by income group and age group (male) 125

4.5b. Anthropometric measurements of the migrant Tamangs by income group and age group (female) 127

5.1a. Anthropometric measurements, indices, ratios and other derived values of the sedentes and migrants (male) 130

5.1b. Anthropometric measurements, indices, ratios and other derived values of the sedentes and migrants (female) 134

5.1c. t-values and levels of significance 136

5.2a. Anthropometric measurements, indices, ratios and other derived values of the migrant Oraons by migrational status (male) 144

5.2b. Anthropometric measurements, indices, ratios and other derived values of the migrant Oraons by migrational status (female) 148

5.2c. t-values and levels of significance (migrant Oraons) 150
5.3a. Anthropometric measurements, indices, ratios and other derived values of the migrant Tamangs by migrational status (male) 154

5.3b. Anthropometric measurements, indices, ratios and other derived values of the migrant Tamangs by migrational status (female) 158

5.3c. t-values and levels of significance (migrant Tamangs) 160

5.4a. Anthropometric measurements of the two migrant groups by income (male) 164

5.4b. Anthropometric measurements of the two migrant groups by income (female) 166

5.4c. t-values and levels of significance 168

6.1. Haematological traits and blood pressures of the sedente and migrant groups 170

6.2. Correlation coefficients between age and systolic and diastolic blood pressures, by sex 172
6.3. Haematological traits and blood pressures of the two migrant groups by migrational status

Page 173

6.4. Haematological traits and the blood pressures of the two migrant groups by income
