List of figures

2.1. Map 44

3.1. Population pyramid (Oraon sedentes and migrants) 61

3.2. Age specific fertility rates in sedente and migrant groups 61

3.3. Population pyramid (Oraon and Tamang migrants) 70

3.4. Age specific fertility rates in migrational status groups (Oraon) 85

3.5. Age specific fertility rates in migrational status groups (Tamang) 85

3.6. Age specific fertility rates by family planning practice (Oraon and Tamang migrant groups) 89

3.7. Age specific fertility rates by age cohort (Oraon migrants) 90

3.8. Age specific fertility rates by age cohort (Tamang migrants) 90
3.9. Age specific fertility rates by income group (Tamang migrants) 96

3.10. Age specific fertility rates by income group (Oraon migrants) 96

Growth curves: Sedentes and migrants (male)

4.1. Weight 99
4.2. Stature 99
4.3. Biacromial diameter 99
4.4. Biiliac diameter 99
4.5. Chest girth (normal) 99
4.6. Biceps girth 99
4.7. Triceps skinfold thickness 99
4.8. Subscapular skinfold thickness 99
4.9. Cephalic length 99
4.10. Cephalic breadth 99

Growth curves: Sedentes and migrants (female)

4.11. Weight 103
4.12. Stature 103
4.13. Biacromial diameter 103
4.14. Biiliac diameter 103
4.15. Chest girth (normal) 103
4.16. Biceps girth 103
4.17. Triceps skinfold thickness 103
4.18. Subscapular skinfold thickness 103
4.19. Cephalic length 103
4.20. Cephalic breadth 103
Growth curves: Migrational status groups (Oraon male)

| 4.21.  | Weight        | 110 |
| 4.22.  | Stature       | 110 |
| 4.23.  | Biacromial diameter | 110 |
| 4.24.  | Biliac diameter | 110 |
| 4.25.  | Chest girth (normal) | 110 |
| 4.26.  | Biceps girth  | 110 |
| 4.27.  | Triceps skinfold thickness | 110 |
| 4.28.  | Subscapular skinfold thickness | 110 |
| 4.29.  | Cephalic length | 110 |
| 4.30.  | Cephalic breadth | 110 |

Growth curves: Migrational status groups (Oraon female)

| 4.31.  | Weight        | 113 |
| 4.32.  | Stature       | 113 |
| 4.33.  | Biacromial diameter | 113 |
| 4.34.  | Biliac diameter | 113 |
| 4.35.  | Chest girth (normal) | 113 |
| 4.36.  | Biceps girth  | 113 |
| 4.37.  | Triceps skinfold thickness | 113 |
| 4.38.  | Subscapular skinfold thickness | 113 |
| 4.39.  | Cephalic length | 113 |
| 4.40.  | Cephalic breadth | 113 |

Growth curves: Migrational status groups (Tamang male)

| 4.41.  | Weight        | 117 |
| 4.42.  | Stature       | 117 |
| 4.43.  | Biacromial diameter | 117 |
Growth curves: Migrational status groups (Tamang female)

4.44. Biiliac diameter 117
4.45. Chest girth (normal) 117
4.46. Biceps girth 117
4.47. Triceps skinfold thickness 117
4.48. Subscapular skinfold thickness 117
4.49. Cephalic length 117
4.50. Cephalic breadth 117

Growth curves: Income groups (Oraon male)

4.51. Weight 120
4.52. Stature 120
4.53. Biacromial diameter 120
4.54. Biiliac diameter 120
4.55. Chest girth (normal) 120
4.56. Biceps girth 120
4.57. Triceps skinfold thickness 120
4.58. Subscapular skinfold thickness 120
4.59. Cephalic length 120
4.60. Cephalic breadth 120

Growth curves: Income groups (Oraon male)
Growth curves: Income groups (Oraon female)

4.66. Weight 124
4.67. Stature 124
4.68. Chest girth (normal) 124
4.69. Biceps girth 124
4.70. Triceps skinfold thickness 124

Growth curves: Income groups (Tamang male)

4.71. Weight 126
4.72. Stature 126
4.73. Chest girth (normal) 126
4.74. Biceps girth 126
4.75. Triceps skinfold thickness 126

Growth curves: Income groups (Tamang female)

4.76. Weight 129
4.77. Stature 129
4.78. Chest girth (normal) 129
4.79. Biceps girth 129
4.80. Triceps skinfold thickness 129

6.1. Distribution of packed cell volume and haemoglobin level in the sedentes and two migrant groups 171
6.2. Distribution of diastolic and systolic blood pressures of the two migrant groups 171

6.3. Age changes in blood pressures (male) 174

6.4. Age changes in blood pressures (female) 174
