Acknowledgements

My respected teacher Professor Rakhahari Chatterji has supervised the present work and helped me all along both in terms of theory and method with his rare ingenuity and foresight. I express my deepest gratitude to him.

This study could not have been completed but for the counsel and assistance of many others. I thank them all.

My respected colleagues in the Department of Political Science, Vidyasagar University, particularly Professor Tarun Kumar Banerjee, have cooperated in all possible ways and encouraged me throughout the period of my research. I express my sincere debts to them.

My friends — Falguni, Goutam, Kajal, Avijit, Gopal, Preeti and Sunando — have been the most active and faithful partners in my intellectual exercise. They have all through shared my pains and joys in the course of the present work. I am deeply indebted to all of them. My particular thanks to Sunando who with utmost care and sincerity has prepared the final computer layout of the whole thesis and put finishing touches to the maps.

I take this opportunity to thank all my respondents and the authority of the Medimpur Municipality without whose active cooperation I could not have been able to complete my research.

The librarians and staffs at the Institute of Local Government and Urban Studies and Centre for Urban Economics Studies, Calcutta, have been kind enough to extend all possible help. My sincere thanks to them.

I must also express my thanks to Sri Chandranath Chatterji and Sri Debashis Chaudhuri who have carefully typed the earlier drafts of this work and Sri Biswajit Sarkar and Miss Kaberi Khan who with sincerity and precision gave it a final shape with computer laser printing.

Finally, this work owes a lot to Titi and Jaya who have over the years borne all the family responsibilities and constantly put on a quiet pressure on me compelling me to finally finish the job.
